

Developed Specifically for Mini-Vans, SUVs, and Light Duty Pick-Up Trucks.

Radius bunk ends with 1,000 lb. capacity are standard on our expandable models. The radius corners are stronger, while large drip rails and automotive rubber seals help prevent moisture penetration. Boltaflex™ weathershield tents with a 5 Year warranty offer double flap seals and stain-resistant interiors.

Lightweight Travel Trailers have grown very popular in recent years for one reason ... they simply make sense. No longer is it necessary to invest in a gas-guzzling tow vehicle to enjoy a retreat! In fact, many of the minivans, SUVs and small V-8s you drive everyday will easily tow a Surveyor! Surveyor utilizes construction techniques that greatly reduce weight while providing incredible durability and strength.

In addition, aerodynamics, low centers of gravity and independent torsion ride suspension ensures superior towing and tracking. It all adds up to an enjoyable, carefree adventure. We know you have choices but with careful study, you will find Surveyor the lightweight of choice. Why tow a heavier trailer?

Thanks,
The Surveyor Group

## **AL-KO®** Axles & Easy Lube Hubs

AL-KO Axles offer many advantages over conventional axles:

- Fully independent wheel suspension.
- No metal to metal contact and no springs, shackles, hangers, or Ubolts to break or wear out.
- Lower trailer center of gravity for improved stability.

The UltrULube™ Hubs allow you to repack bearings quickly and easily without disassembly.

You'll appreciate the water filtration system that is standard with each Surveyor. This compact unit filters water for the entire coach, eliminating those unwanted contaminants and odors. Insuring safe drinking water for you and your family.

The SV-235RS offers twin double bunks! The unique folding bed provides ample room to store large items.

The rich interior colors found in the fabrics and woods of each Surveyor reflect our desire to create an inviting, open living space for our owners. Surveyor's feature "Sweetheart Oak" cabinetry with mortise and tenon constructed cabinet doors with beaded panels, name brand appliances, durable yet attractive flooring and more. If you are in the market for a light weight towable with style - then the Surveyor is your best choice!

### WHAT'S IN YOUR SIDEWALL?

Dare to compare! Your Surveyor is constructed with 1.5" tubular aluminum framing in "**all**" openings. Is this necessary - we think so! Aluminum framed openings add strength and integrity to every Surveyor sidewall. No other lightweight trailer compares.

Surveyor sidewalls feature Lamilux™ fiberglass which contains a higher gloss and less fade rate than others; 1.5″ block foam insulation; welded 1.5″ tubular aluminum tubing, and complete anti-wicking agent to protect the bond - all laminated together.

Tough, welded steel frames with a powder coated protection provides lasting durability and corrosion resistance.

The "storage plus" door with a unique flip-up bunk bed system allows you to pack all your necessities needed to make your camping experience enjoyable.
