

QUALITY

Winnebago RVs are designed and built around you, with superior craftsmanship, advanced manufacturing technologies and steel-focused construction to enhance safety and reliability.

INNOVATION

From groundbreaking RVs to game-changing features to the spacious floorplans made possible by our SmartSpace™ design, our heritage is unrivaled for continuous industry firsts in vehicle technology and design.

SERVICE

Our carefully chosen dealers are supported by factory training and our advanced parts supply system, while owners benefit from excellent real-world customer support as well as 24/7 access to online technical information.

BELONGING

Winnebago owners are a connected community – some of the friendliest, most knowledgeable and welcoming RVers you'll find anywhere.

REVEAL

BUILT FOR EXTENDED OFF-GRID STAYS

STAY WILD. STAY LONGER.

When you leave the world behind, the Revel[®] is equipped with the exclusive, Winnebago Power Max system, and industry-leading water management that allow you to venture confidently off-grid for up to 7 days.*

POWER WITH INTELLIGENCE

The Winnebago[®] x EcoFlow[®] 5-in-1 Power Hub Pro** streamlines power management and optimizes energy performance while also saving space and reducing weight. System includes:

Inverter - Inverts 48V DC battery power to 120V AC for use with appliances and outlets, up to 3600W output

Inverter Charger - Inverts 120V AC shore power to 48V DC to charge the lithium house battery, up to 3000W input

DC-DC Converter - Converts 48V DC battery power to 12V DC power for RV appliances like water pumps, lighting, and accessories, up to 1000W output

MPPT Solar Charger - Boosts DC solar power to charge the lithium house battery

Alternator Charger - Boosts DC alternator power to charge the lithium house battery

SEASON-EXTENDING INSULATION
When the temperature drops, the adventure continues, thanks to multi-layer gap-free 3M[™] Thinsulate[™] insulation coverage engineered and optimized for the Revel. Paired with honeycomb composite flooring for an added thermal break, comfort is yours.***

MORE FUN THANKS TO THE SUN

To provide additional off-grid energy, and lessen daily power loss from lights, water pumps, the refrigerator and other electrical devices, the Revel is equipped with 210W solar panels, with an option to add up to 1,600W through portable solar panels.

HYDRONIC HEATING SYSTEM

The Revel is equipped with multi-zone heating and ambient sensors so you can control temperature in the front lounge and bedroom with added convenience of timers and setting schedules.

POWER WITH MUSCLE

Our best-in-class Lithionics[®] GTO battery has up to 16,800Wh capacity and provides ample power for off-grid adventures. The large capacity means less time charging and searching for shore power.

CHARGE WHILE YOU DRIVE

By simultaneously pulling from dual alternators, this system optimizes high speed charging and provides enough power to run an air conditioner and/or charge batteries at idle. With just 2 hours of driving, the 48V high-output alternator allows you to fully charge both batteries.

OUR BATTERIES HAVE A BRAIN

The Lithionics[®] external battery management system (BMS) streamlines communication between all of the different charging components for optimal charging. It also includes safety features to regulate and shut off the batteries if any issues arise.

WATER ON THE GO

The Revel's new industry-leading 35 gallon freshwater tank is custom designed and molded by Winnebago to make the most of every square inch. Includes an independent heat loop sensor to help prevent freezing when temps drop below 40 degrees.

*Up to seven days of boondocking capability based on a full charge. Actual boondocking capability varies with conditions such as external environment, vehicle use, vehicle maintenance, and battery age and health.

**Winnebago[®] x EcoFlow[®] 5-in-1 Power Hub Pro is exclusive to Winnebago motorhomes.
***Winnebago recommends following the winter use guidelines and winterization procedures outlined in your own's manual whenever camping in freezing conditions.

LEARN MORE ABOUT WINNEBAGO POWER

TURN-KEY THRILLS.

If you're seeking the freedom and excitement that comes with off-road, off-grid travels, the new Revel is ready for action. It's the ultimate ready-to-go, go anywhere adventure van. Built with the robust power and accessory upgrades you need to travel boldly beyond the beaten path, and the convenience and comfort you need to truly enjoy the great *out there*.

Take It Off-Road

Giving you the robust power you need for backcountry adventures, the Revel is built on the all-wheel-drive Mercedes-Benz® Sprinter chassis with a 4-cylinder turbo diesel engine and an overdrive transmission delivering over 330 foot-pounds of torque. Nothing will hold you back.

Light Up the Night

The urge to explore doesn't end when the sun goes down. The Revel comes equipped with dual light bars that throw out 22,000 lumens. So no matter how remote your travels take you, you can safely see the trail ahead.

Prepare for Adventure

When exploration calls, you need your stuff. And the Revel gives you the storage solutions you need to bring it along. The van-top cargo area not only has custom side rails to make sure everything stays safe and secure on the go, but a rear mounted ladder makes access simple and easy.

Ready for Anything

The road less traveled isn't always the smoothest one. So to give you all the trail-grabbing grit you want, check out the custom performance wheel and BF Goodrich® all-terrain tire package. Plus, you can take advantage of the optional RAPTOR® protective coating to make your rig even more durable.

Floorplan Shown 44E

Comfort. Convenience. Cool.

Kick Back In Comfort

Whether the Revel is your homebase for ski, surf or sand, the modern multi-functional lounge delivers. Recline and relax in versatile split seating. A new wall-mounted table gives you the space you need to work remotely, relax with your crew or serve up an off-grid worthy feast.

Cook Where You Want

An improved galley absolutely shines with more counter space, a portable cooktop, and plenty of storage. Keep the door open or take the cooktop out to the exterior drop down table for some al fresco action. Revamped cabinets with compression latches ensure doors and drawers stay put and reduce off-road noise.

No Ordinary Wet Bath

Maximizing comfort and convenience, the bath doubles as a gear closet with a removable shelf and collapsible bins for greater customization. The new middle-split door allows more room to move. And just outside the bath is a new thermal privacy curtain, so you can block off the sleeping area to create two separate living spaces.

Sleep is Just the Beginning

In compact campervans, multi-functional space is the key to comfort and convenience. The Revel's power lift bed sports our innovative WinnSleep® mattress technology to create a cozy, comfortable sleep space. And below the power lift bed? An upgraded gear garage with flexibility and durability to store all your gear, including new cabinet storage and multiple L-track bases.

What do you need to know before you go?

And how does that cassette toilet work again?

You'll find the answers to these and many more questions in the Revel Video Library, a collection of informative and how-to videos that explains pretty much everything you need to know about the Revel.

From adjusting seats and lowering (or raising) the bed, to operating major systems, to plumbing and electrical basics — it's all here in the Revel Video Library.

Ground fault interrupter

Warranty⁴

12-month/24,000-mile basic warranty*

FOOTNOTES

*See your dealer for complete warranty information.

All information is based upon the most recent data available. Visit the Winnebago web page - www.winnebago.com - for the most current product information.

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Contact your dealer for further information.

2. Capacities are based on measurements prior to tank installation. Slight capacity variations can result upon installation.

3. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Refer to the chassis operator's manual of your motorhome for further towing information.

4. See separate chassis warranty

5. Sleeping capacity is the maximum based on a specific floorplan.

n/a Not Available

Not all items available in combination. See dealer for details. Because features, specifications, equipment, and options may vary from those highlighted here, the buyer is responsible for confirming with the dealer the features, specifications, equipment, and options included on their specific vehicle.

In addition, Winnebago's program of continuous product improvement may result in changes to vehicle specifications, equipment, model availability, and price without notice.

Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.

MEET THE REVEL SPORT

Introducing the Winnebago® Revel® Sport. A camper van equipped with boondocking essentials, including off-road performance and off-grid power. Combined with serious gear storage, you're ready for adventure.

Head Out. Stay Out.

Explore off-grid comfortably with one Lithionics® 4.1 kWh LiFePO⁴ battery easily monitored via Bluetooth®. Extended season insulation, diesel-fired hydronic heating and available air conditioner provide optimal temperature control inside for every adventuring season.*

Designed for Comfort

Every inch of the Revel Sport is about you. The Sport's lounge seating creates an ideal space to relax after a long day of adventuring. Featuring discreet storage, two seatbelts and a removable pedestal table for flexibility, this space is set to flex to your needs.

Built to Last

The Revel Sport's interior is durably designed to keep up with your adventures. With easy-to-maintain surfaces, heavy-duty vinyl flooring, reverse cove molding at cabinet bases, folded aluminum constructed cabinets and positive latching slam latches. Bring it on.

Gear Hauling Dream

The power lift bed not only transforms your bedroom area into a massive gear garage, it also provides easy access to the onboard lithium system and internal freshwater tank.

Versatile Living

The galley flaunts its flexibility with an exterior table, removable counter extension and a refrigerator accessible from inside or out. Plus, a storable induction cooktop adds counter space alongside a stainless steel sink.
