CHER  KEE

FOREST RIVER

FORESTRIVERINC.COM

TOUGHER. LIGHTER. BETTER.

WE ARE ALPHA.

For over 20 years, the Cherokee division of Forest River has produced quality products and has endured to become one of the RV industry's most widely respected and purchased towable products. The Cherokee Alpha Wolf offers the best mix floor plan diversity and top shelf amenities while at the same time creating a tougher, lighter, better insulated shell. Alpha Wolf is the next evolution in Cherokee's renowned quality, floor plan functionality and outstandingly affordable value proposition. Plainly speaking, we give you more for your hard earned dollar!

25RB-L

PERFECT FOR THE TWO OF YOU THAT WANT TO GET OUT AND TOUR!

Some interior appointments include an abundant interior storage capacity with two pantries, oversized rear bath, plush theatre seats with heat-light-and massage, removable dinner trays, farm style sink and dual barn style doors, large rear bath with linen. Some exterior refinements include an oversized 18' exterior awning and a deluxe outside kitchen for the camp chef!

RE-DELIVERY INSPECTION FACILITY

1,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Specification Definitions: **GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR. // **GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles. // **UVW (Unloaded Vehicle Weight)** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. ** Estimated average based on standard build optional equipment. // **CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. *** Estimated average based on standard build optional equipment. // Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit. // All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. Litho. U.S.A.
