Diamond Shield Ceramic Paint & Gel Coat Protection

RV Americare Diamond Shield Ceramic Paint/Gel Coat Protection is a **long-term protective coating** that combines nano diamonds with ceramic technology.

The nano diamonds give unparalleled shine and reflection, creating a diamond brilliance finish to your RV.

The ceramic forms a chemical bond to the surface for outstanding protection. The two technologies together result in a stunning appearance with **high levels of gloss, slickness and reflection.**

When the elements hit your RV’s surface, they easily roll off!
