The Winnebago Towable Legacy

Towables are in Winnebago's DNA. In fact, Winnebago was founded in 1958, originally as a travel trailer manufacturer. Since then, we have evolved our towables offering to not just meet, but exceed, the demands of our consumers. Inspired by our founder, industry pioneer John K. Hanson, we continue to push what's possible in the towable category through relentless innovation.

Committed to Dealer Success

When a dealer partners with Winnebago, they experience support that is unmatched by any other. We only allow one dealer per market. This means less competition, greater return on the dealer's investment, and a consistent customer experience. Better point of service, and response time, translates into happy customers. Our owner communities are passionate and unlike any other, and that is directly influenced by their satisfaction and advocacy for our brand.
