Porcelain Vessel Bowls with Euro Plumbing Fixtures in Bathroom

INVITING DESIGN. ENGINEERED COMFORT.

The beautiful new Georgetown XL by Forest River has taken fine appointments to the next level. With soft-touch seating surfaces, high-gloss solid wood cabinetry, high-end vinyl plank flooring and frosted glass door inserts, you'll find our three thoughtfully-designed floorplans hard to choose from. Standard features include 84" interior headroom and beds 80" in length to bring you maximum comfort and enjoyment.

The Georgetown XL is the epitome of true luxury on the road. The salon area is wide open and inviting with a fireplace, large LED TV and plenty of room to move around. The kitchen features stainless steel appliances including a commercial grade cooktop with cast iron grates, residential 20 cu. ft. refrigerator and convection microwave oven. Solid surface countertops with undermount sinks and flush solid surface covers, a countertop extension and abundant cabinet storage make your galley complete.

We've incorporated an aerodynamic front cap and one of the industry's largest windshields, offering panoramic views second to none. Add a stunning paint package and you have the most distinctive gas coach in the marketplace. Visit your local dealer today and put yourself in a Georgetown XL, where inviting design and engineered comfort come together.

GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight) * is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity) ** is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
