

## Pre-Trip Inspection Checklist

- Check tire pressure, tread depth, and lug nuts
- Inspect hitch, coupler, safety chains, and breakaway switch
- Verify lights and signals (brake, turn, hazard, running)
- Check trailer brakes and controller operation
- Confirm mirrors are adjusted and clean
- Secure all slide-outs and awnings
- Close and latch all doors, windows, and compartments
- Check propane levels and inspect for leaks
- Verify water, waste, and battery levels
- Test smoke, CO, and LP gas detectors
- Pack leveling blocks, chocks, and jack handle
- Ensure all interior items are secured for travel
- Confirm registration, insurance, and emergency contact info are on board
