NEW 22.5K GOOSE BOX™

GET YOUR BED BACK!

The next evolution in fifth wheel towing.

Designed for RV comfort and dual-purpose trucks, the REESE® Goose Box system was designed to reduce stress between the truck and RV. It performs so well that it is the only product of its type that does not void the warranty on Lippert frames.

FEATURES

- **Part # 94980** - 22,500 lb (4,500 lb pin weight) capacity
- Air-ride technology, multi-directional shock absorption, and rubber bumpers provide a superior ride and smoother
- Perfect for triple axle trailers and heavier loads driving experience
- Easy-to-reach lanyard for trouble-free hitching and uncoupling
- Tested to CSA and SAE J2638 standards for a durable, worry-free towing experience
- Automatically locks when coupling
- Lockable BULLDOG® coupler for added security
- Increased height adjustment for taller truck beds
- Convenient onboard safety chain storage
- Air pressure release valve prevents overfilling
- Improved air system with overfill relief valve for worry-free use
- Easily visible air pressure indicator
- Mounts in the same position as a standard pin box (or one position lower)
- Adjustable in 1" and 2-1/2" increments, based upon the wing set hole spacing
- Coupler is about 12" lower than a standard king pin

Do not exceed the lowest rating in your towing system. Maximum capacity is the lower of the towing vehicle manufacturer's rating, the trailer manufacturer's rating or the Goose Box rating.
