SOARING EAGLE
CAMPERS

OUR STORY

SOARING EAGLE CAMPERS

The entry level truck camper market typically features mostly campers made with wood construction and covered by thin metal. SOARING EAGLE CAMPERS constructs our

campers using only tubular aluminum construction and thick fiberglass exteriors (or durable aluminum exteriors on the OV-X product line).

Our models are minimalistic, yet refined with special attention given to outdoorsmen and those who are

more about the adventure than amenities.

Soaring Eagle Campers customers are hunters, fishermen, hikers, kayakers, mountain bikers, etc. who just want a more comfortable night's sleep in a camper that will not overload their medium and light duty trucks. With that in mind, Soaring Eagle Campers is just doing

our best to provide a quality-built product, made with superior materials, into an already proven market segment.

You will not find any wood in our framework - in fact, our entire structure is welded together to form a strong, UNI-BODY construction that will stand the test of time and the

STRUCTURE SCREWED & WELDED TOGETHER

rigors of the road! The unit is easy to keep warm or cool as all sections are fully insulated, including the floor, walls and roof.

The dinette bases in the Soaring Eagle Campers' Adlar models are crafted out of high-tech composites that are both lighter than wood and much longer lasting.

NO WOOD - NO ROT!!

6.5XL Shown on a 5.5' bed.

Shown above in our new Platinum Gray exterior fiberglass option, the ADLAR 6.5XL offers sleeping areas both in the upper deck and in the roomy dinette that quickly makes into a bed.

A popular option is our North-South pull-out queen bed designed for couples who want the extra room for sleeping.

Shown on a 5.5' bed.

The portable toilet provides another level of independence when traveling. When not in use, it hides away under usable counter space.

The overall interior spaciousness afforded by the ADLAR 6.5XL interior will surprise you, with plenty of headroom, along with a roomy dinette, wardrobe and loads of counter top and storage space. Four slider windows provide tons of natural light and great air flow, in addition to standard power vents, and an optional roof air conditioner.

The full size wardrobe cabinet provides great storage for all your clothing needs. A built-in microwave is standard, while popular options include a Dometic Powered Cooler (12V/110) and a portable

DESIGNED TO FIT IN THE BED OF THE TRUCK WITH THE TAILGATE UP!

Being able to close your tailgate with the camper IN the truck bed is a game changer! Today's trucks offer a number of security and safety features built INTO their tailgates, including back up cameras and security sensors. Being able to keep your tailgate closed when traveling was a priority with Soaring Eagle Campers when designing this model. With most modern trucks also offering STEPS and even hand rails as part of their tailgate design, it just makes sense to build our campers to take advantage of those features!

Weighing in at less than 1,200 lbs., the Soaring Eagle Campers' ADLAR 6.5XL model is built for those looking for simplicity, but who want just a little more than what our smaller 6.5 model offers. Featuring an all-aluminum structure and fiberglass skin, its utilitarian design fits both in trucks with a 5' bed (with the tailgate off), as well as in trucks with a 6.5' bed - with the tail gate CLOSED (on most truck models) and better protect their camper during travel. The ADLAR 6.5XL offers loads of built-in storage, a portable toilet, built-in microwave and more! Shown below is our optional pull-out North-South bed - perfect for couples who are looking for more space to sleep.

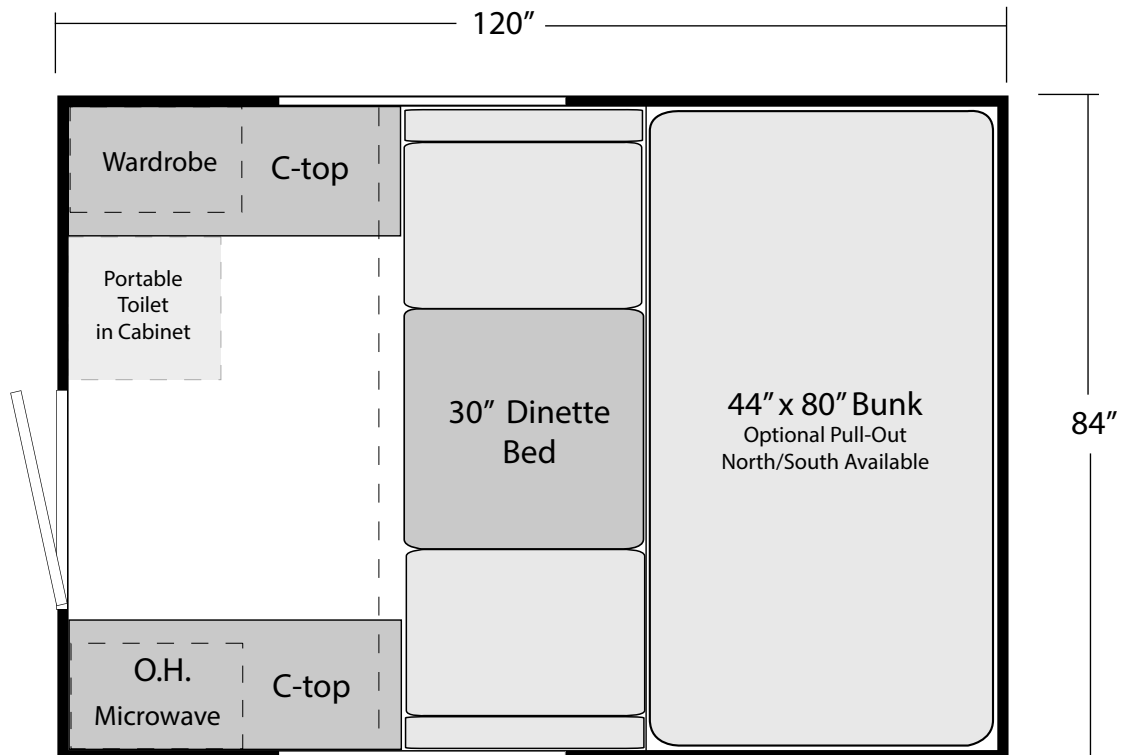

CHOOSE THE OPT. PULL-OUT NORTH-SOUTH BED FOR MORE SPACE!

ADLAR 6.5XL

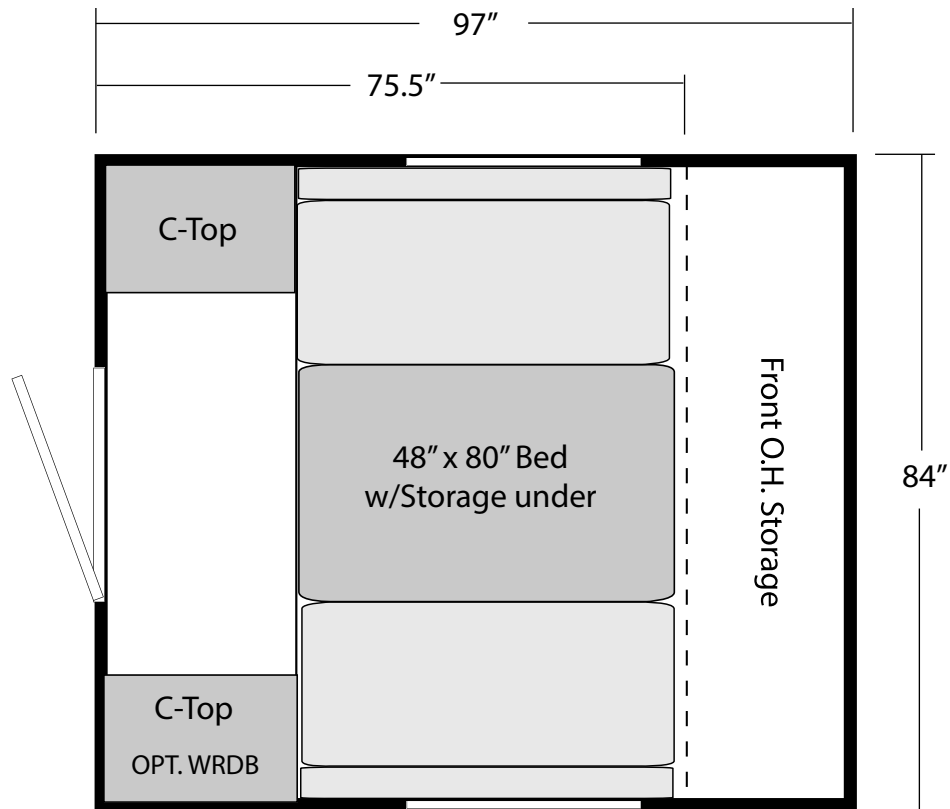

**TRUE HALF-TON TRUCK DESIGN
ALL UNDER 1,200 lbs!**

ADLAR 6.5XL

ADLAR 6.5

ADLAR 6.5

Weighing in at under 1,000 lbs. Soaring Eagle Campers' ADLAR 6.5 model is small, but mighty in terms of what it offers our customers. Its aluminum constructed, fiberglass covered, utilitarian design fits both in trucks with a 5' bed (with the tailgate off), as well as perfectly in trucks with a 6.5' bed - with the tail gate CLOSED. The ADLAR's sleek, aerodynamic design cuts through the wind, aided by the rear spoiler which also adds some style as well as providing a place for an overhead exterior porch light.

SIMPLE - YET REFINED

One of the nice things about the ADLAR 6.5 from Soaring Eagle Campers is the fact that there are no systems on board to cause potential problems down the road. This is the most basic of the basic in terms of allowing someone a place to sleep, eat or play games when traveling. The standard model comes with only a 12V system. You can option in a 110V package with outlets and availability for a roof mounted air conditions, as well as add a variety of solar power packages.

OV-X "TOPPER"

OV-X

**Now Available in four Bed Sizes:
5' bed; 5.5' bed; 6.5' bed; and 8' bed!**

This ultra-light, extra-rugged, truck topper camper offers a pull-out king bed with mattress that has built-in storage underneath. The open space provides storage for just about anything you would ever want to take on your adventures. The top of the OV-X goes up with ease utilizing Soaring Eagle Campers proprietary lift bar mechanism, supported by gas struts on the exterior. The tent fabric is both waterproof and durable, providing years of carefree usage. Two large 12V vent fans in the roof feature LED rings around them which light up the interior of the camper. Popular options include roof mounted solar panels, a portable Blackstone griddle, Dometic powered cooler (12v/110), exterior peg boards for attaching gear and a roof rack for kayaks.

MODELS FOR FULL SIZE TRUCKS AND SMALLER TRUCKS!

OV-X 5.0 Designed for Small Trucks!

Designed specifically for the small truck market, including the popular Jeep Gladiator and Toyota Tacoma models with 5' beds, the OV-X 5.0 is an ultra-light, extra rugged camper offering a pull-out bed with mattress that has built-in storage underneath. The open space provides storage space for all your gear. Options include roof solar packages; exterior mollie boards; rear flood lights; power roof vents and more!

You will appreciate Soaring Eagle Campers proprietary electrical center - crafted from durable composites, this center offers switches for the lights and vents, as well as chargers and a home for the solar controller!
