MAXIMIZING VALUE AND COMFORT

AUTOMATIC LEVEL UP

Automatic level up will level your coach with the push of a button. Auto re-hitch memory makes leaving the campground a breeze.

45K/45K BTU'S OF HEAT AND AC

Enjoy the warmth of our 40,000 BTU furnace and 5,000 BTU fireplace. Cool down in the summer with our optional 45,000 BTU air conditioning system.

MORRYDE STEP ABOVE WITH STRUT

This step greatly reduces overall weight allowing anyone to lift the stairs with ease. They also provide a stable platform to enter your RV. Comes standard on main entrance.

SOFT CLOSE CABINETS

A feature that must be tried in person. Hidden hinged cabinets with soft close doors and drawers will save you wear and tear throughout your coach.

SEASONAL PROTECTION PACKAGE

2" thick, vacuum bonded walls, foam block insulation, enclosed underbelly, heated holding tanks and radiant foil help keep our units protected from the seasons.

EXTRA LARGE 76"x 32" ENTRY DOOR

The oversized entry door allows anything inside the coach to be taken through the door. It also allows for more gear or groceries to be loaded in one trip.

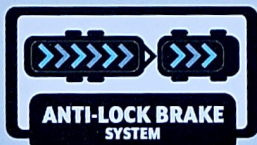

TUFFLEX PVC ROOFING

Our TUFFLEX PVC roofing material provides a strong barrier against the elements. Now with a lifetime warranty for material failure.

SAFE TRAVEL - TPMS + CAMERA PREP

Have peace of mind while traveling or at your campsite. Our rim mounted TPMS constantly monitors your tire pressure and heat. The four camera prep allows for 360° monitoring while traveling or parked.

ANTI-LOCK BRAKING SYSTEM

The Anti-lock braking system combines the best of ABS and connected RV technology to deliver a comprehensive safety platform.

QUALITY CIRCLE AWARD WINNER

We are proud to be a four-time winner of the Dealer Service Index - Quality Award Winner. Voted on by our dealer body; we wear this badge with pride.
