Reflection[®]

A CELEBRATION OF LUXURY, VALUE & TOWABILITY

Reflection's combination of luxury, value, and towability in one amazing package continues to exceed the expectations of our retail customers. Our industry leading pursuit of quality and commitment to building around the needs of our retail customers is what drives Reflection to the top of its class.

Fifth Wheels

150 Series Fifth Wheels

Travel Trailers

BUILT TO A HIGHER STANDARD

MAXIMUM INSULATION

1 FULLY LAMINATED WALLS (R-9)[†]

Sidewalls, rear wall, slideroom endwalls, and slideroom roof are all laminated construction with rigid foam insulation. Many competitors use soft fiberglass insulation in the rear wall and sliderooms that can settle over time and leave uninsulated air gaps.

[†] R-11 on bed slide models

2 DOUBLE INSULATED FLOOR (R-30)^{*}

The heated underbelly features a layer of radiant foil insulation and the main floor another layer of insulation.

The slideroom floors are also insulated with radiant foil. (R-24)^{*}

3 DOUBLE INSULATED ROOF (R-40)^{*}

A layer of fiberglass insulation and a layer of radiant foil insulation covers the full length of the roof.

4 DOUBLE INSULATED FRONT CAP (R-40)^{*}

Grand Design goes the extra mile by extending both the radiant foil and fiberglass insulation layers from the roof, and wraps them all the way around to the bottom of the front cap.

5 INSULATED GOOSENECK

A layer of fiberglass insulation under the gooseneck is a place often forgotten by others.

^{*}Equivalent R-Value

MAXIMUM HEATING POWER

A high performance furnace and fireplace combine to deliver 40,000 BTU's or more of heating power.[†]

[†] Fireplace not available 150 Series (35,000 BTU)

MAXIMUM FUNCTION

- Heated Holding Tanks
- Heated Utility Center & Storage Bay
- Heated & Enclosed Low Point Drains

ARCTIC 4-SEASONS PROTECTION PACKAGE

Reflection's design has been put to the test in extreme temperatures ranging from ZERO to 100+ degrees. Third party extreme cold testing showed that the Reflection remained functional and achieved very comfortable temperatures.

Note: Testing was performed in a temperature controlled chamber, with temperatures ranging from -6°F to +101°F, and does not account for variables such as wind, humidity, and altitude. Due to the number of potential variables, temperatures reported during testing may differ from temperatures achieved during actual use of the unit in nature.

BACKED TO A HIGHER STANDARD

Every Grand Design RV is backed with a class leading 3-year limited structural warranty. By selecting suppliers with similar philosophies, many components used on our coaches also carry an extended warranty through the component manufacturer.

- ▶ AXLES (5 Years)
- ▶ CHASSIS (3 Years)
(Main Steel Frame, Steel Frame Outriggers and Cross Members)
- ▶ TIRE WARRANTY
(5 Years w/12 Month no questions asked replacement)
- ▶ EXTERIOR GRAPHICS (5 Years)
- ▶ ROOF COVERING (12 Years)

RACETRACK DUCTING

True Racetrack Ducting extends past each AC unit to allow for uninterrupted airflow from the front to the back of the coach.

These end loops in the ducting are essential for true "racetrack" movement.

TYPICAL DUCTING

Typical ducting provides partial airflow with less cooling efficiency and creates airflow collision in the center.

EVENFLOW HEATING SYSTEM

Evenly distributes heat from the front to the rear without vents in floor that collect dirt and debris.

OVERSIZED TANK CAPACITIES

Fill and empty your tanks less often.

MORE OUTLETS!

Strategically placed outlets throughout.

MOTION SENSOR LED LIGHTING

No more searching for light switches in the dark.

UNIVERSAL DOCKING STATION

All-in-one heated location with EZ winterization system and exclusive siphon feature (Fresh tank)

UNOBSTRUCTED PASS THRU STORAGE

Clean storage area with slam latch baggage doors and magnetic catches.

Because of our commitment to continuous product improvement, Grand Design Recreational Vehicles reserves the right to change components, standards, options, specifications, and materials without notice and at any time. Photos may show optional equipment which may not be included in the standard purchase price of the featured unit. Be sure to review current product details with your local dealer before purchasing. Rev 02.05.19

We Strive For Nothing Less Than Customers for Life!

Thank you for taking the time to tour our coach. We would like to share what sets Grand Design RV Company apart from all other RV manufacturers and why this difference is important.

Grand Design's founders were part of the ownership and leadership team of the largest travel trailer and fifth wheel manufacturer in the world. While proud of this accomplishment, it became difficult to stay in touch with customers, employees, and ultimately the quality of the final product. It was obvious there was a better way.

In 2011, we started with a blank canvas to pursue that better way, a different way, than what had been done before. A company whose culture requires a long-term, personal connection with our customers, employees, and dealers – that company is Grand Design RV. Our business model of doing the right thing has led us to unparalleled years of growth.

LONG TERM VALUE

Everything we do at our company is designed to build long term value in what we offer our customers, "more features and superior value for your dollar."

CUSTOMER FOCUS

Our focus, from the very first day we opened our doors, revolves around our customers. Your satisfaction is our future.

STAYING CONNECTED

Magic happens when the CEO and Senior Management actively work with the production facilities to help build the team and develop products.

EXPERIENCED WORKFORCE

Our local workforce has been hand-picked and has an excellent reputation for second-to-none industry craftsmanship.

CLASS LEADING WARRANTY

We back every one of our coaches with a 3-year limited structural warranty.

RAISING THE QUALITY BAR

We put every Grand Design RV through a series of quality inspection gates during the manufacturing process. Once completed, the unit undergoes a comprehensive "final finish" inspection. At this point, most manufacturers ship their coaches to the dealer for retail sale. We aren't most manufacturers. Every one of our coaches are shipped to a PDI (Pre-Delivery Inspection) area where they are put through a rigorous 288+ point inspection checklist. It is only after PDI certification that we deem a unit ready to ship to our dealers.

SUPERIOR SERVICE

Anything built by humans that travels down the open road is subject to issues. It's how those issues are addressed that makes Grand Design stand out. Don't just take our word for it, visit the independent Reflection owners page (Grand Design Reflection Owners) or (Grand Design RV Owners) on Facebook and see for yourself. We take care of our customers after the sale. An informed customer will be a Grand Design customer!

At Grand Design our goal is simple – continue leading the industry with quality products while improving the customer's RV experience before, during and after the sale. We strive for nothing less than customers for life and we would be honored to personally welcome you to the Grand Design RV family!

Warmest Regards,
Don Clark
President / CEO / Co-Founder

Grand Design RV was created in 2012 and founded by close friends Don Clark and brothers Ron and Bill Fenech (Representing over 80 combined years of experience in the RV Industry).
