NOBO
NO BOUNDARIES

WHAT IF THERE WERE NO•BOUNDARIES?

Designed for those who push limits, the versatile and exceptionally light weight No Boundaries (**NOBO**) travel trailer is rugged enough for any outdoor enthusiast. It's innovative and durable rooftop Rhino-Rack offers adaptable storage for Kayaks, mountain bikes, snowboards, fishing equipment, or just simply extra luggage. Towable by both 4- and 6-cylinder vehicles, **NOBO** is ready when you are.

Connor Ray / NB10.6

WHEN YOU LIVE LIFE BY A COMPASS, NOT A CLOCK.

With industry-leading ground clearance, larger diameter tires and a nimble suspension system, you'll be able to explore and set up camp in places that would otherwise be inaccessible. Additionally, the upscale interior focuses on thoughtful, useful design with ample storage and an ergonomic and refreshing living space.

NO·BO is attractively equipped with both familiar standard equipment as well as fresh features for a truly unforgettable adventure.

Forest River Owner "Digital Kit" App

Now you can have your Owner's Manual with you wherever you are. Download our FREE App from the App Store or Google Play and you'll have the information right at your fingertips.

This brochure is complete thanks to the support of our wonderful Retail Customers, as you will see their photos throughout. These customers truly exemplify what it takes to be a NoBo Owner – and for that we are grateful and happy to share in their memories.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
