Isata 3 Series Customer Driven – Inside and Out

Nimble on the road and spacious when it counts, the Isata 3 Series is built on the Mercedes-Benz® Sprinter chassis with a 188-hp turbo diesel engine for an incredibly pleasurable drive. Dynamax products are designed with an upgraded suspension and upscale interior appointments in response to real customer feedback. When it's time to relax, these versatile floorplans open up to maximize living space for a more satisfying experience away from home.

The Isata 3 Series comes standard with a 6" touch screen dash infotainment center. You never have to rely on spotty cell phone reception or data downloads to get you where you're going.

The Xite system features:

- AM/FM, Bluetooth®, Sirius/XM™ Tuner and Antenna (subscription required)
- Rand McNally® RV Navigation with millions of POI's, thousands of RV parks and campgrounds, including national and state parks
- Rand McNally® Editor's Picks, including Best of the Road® adventures, trips and getaways
- RV Checklists

- Fuel Log
- Lifetime Map Updates
- Dedicated Camera Button
- Wi-Fi connected services including live fuel prices, weather and local search
- Dependable knob so you can adjust volume on the fly without taking your eyes off the road

Dynamax Owner "Digital Kit" App
Now you can have your Owner's Manual with you wherever you are. Download our FREE App from the App Store or Google Play and you'll have the information right at your fingertips.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) - Is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)* - is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs. per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

*Estimated Average based on standard build optional equipment. **Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. ©2017 Dynamax 6/17
