A DIVISION OF FOREST RIVER

#CampHere

Tandara is a phrase from the indigenous people of Australia that means “Camp Here” and perfectly embodies the adventurous spirit of East to West RV’s mid profile fifth wheel brand. With best-in-class quality, floor plans and features, it’s easy to see why so many experienced RVers have decided to camp here.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do **NOT** exceed GVWR. **GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles. **UVW (Unloaded Vehicle Weight)*** - is the typical weight of the unit as manufactured at the factory. It includes all weights at the unit's axle(s) and tongue or pin and LP Gas. The UVW **does not include** cargo, fresh potable water, additional optional equipment or dealer installed accessories. *Estimated Average based on standard build optional equipment. **CCC (Cargo Carrying Capacity)**** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. **Estimated average based on standard build optional equipment.

Each East to West RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every East to West RV prior to leaving our facilities. The load capacity of your unit is designed by weight, not by volume, so you cannot necessarily use all available space when loading the unit.
