Chassis/Suspension Upgrades				

- Stage 4.3 System Installation

The Stage 4.3 system pairs the Mini Leaf Spring pack with front and rear adjustable piggy back 3.3 Fast Adjust shocks and a front Sumo Spring bump stop upgrade. This system is intended for built out adventure vans, loaded work/play vans and Class B RV's that need a rear spring rate upgrade to counter build weight and correct rear sag that results in poor ride quality and wallowing handling.
