FAMILY FRIENDLY TOWABLE COACH

FUNCTIONAL  
**MURPHY BED**

**THIS IS YOUR TIME.** With an optional power package and remote control that will make this one of the easiest coaches to set up and break down, why not spend that time enjoying life and making memories? Get outside, take that hike, create fond memories with your family. When you do finally get back to the trailer, unwind in style for a fraction of the cost of competitor's coaches.

SALEM

# 27RKSS

FAMILY FRIENDLY TOWABLE UNIT

## EXTRA LARGE REAR KITCHEN

### TOWABLE COMFORT FOR YOUR FAMILY

Salem provides spacious, convenient floorplans, even when you need light weight towability for any size family!

**PREMIUM STANDARDS.** Enjoy plenty of counter and cooking space with the extra large rear kitchen, without losing family space.

Hey Mom and Dad! So, it's our first camping adventure in our new 27RKSS. Debbie and Suzy really loved it! We hiked and fished and I don't think they slept the whole time! You wouldn't believe the power options on this trailer! Made life easy, and the glow of the LED awning light at night was really nice. Love you and see you soon!

Bill and Jamie

## Specification Definitions

**GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

**UVW (Unloaded Vehicle Weight)\*** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

\*Estimated average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)\*\*** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

\*\* Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

SALEM

SALEM CRUISE LITE

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!
