LANCE

WE TRULY APPRECIATE YOUR INTEREST IN LANCE PRODUCTS.

Over the past 57 years of producing RVs, we have learned a lot. The biggest lesson has been to supply a high-quality, fully functioning RV that will provide you with years of memories.

The process to determine the best RV model for you can be enhanced by going to our website www.Lancecamper.com. The information on our website is updated more frequently than our printed materials.

We pride ourselves on relationships. The first relationship is with our Dealer Partners, who will be your primary contact for all Lance products. We have a Q&A section on our website that can answer most questions. If you have additional specific questions, they can be sent to us directly at Info@lancecamper.com, allowing direct communication with Lance. The next source of direct contact can be found on our website through our Lance Chat area, connecting you directly with a Lance representative.

We look forward to welcoming you to the Lance family.

Warm Regards, Gary Conley

4 SEASONS COMFORT

OPTIONAL EQUIPMENT

QUALITY

Since 1965, Lance Camper has been building the highest quality travel trailers and truck campers, designed to deliver the most value and enjoyment possible. For 2023, we have raised the bar yet again in quality, design, and value. As a result, those who have owned a Lance return again and again. For the first-time buyer, we encourage you to "purchase your last RV, first!"

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

Solid Surface Counter Tops - Residential styled galley counter tops look beautiful while resisting the negative effects of moisture.

TPO Lower Rock Guard - Great looking design made with durable material to fend off nature's worst! Who says you can't have both form and function!

Overhead Cabinetry Construction - Strong yet light Euro-Ply construction, combined with heavy-duty hinges and automatic LED lighting, rival custom residential cabinetry!

OFF-GRID CAPABILITY

Boondocking, dry camping, or overlanding, whatever you choose to call it, off-grid RV camping is valued by many as the best way to camp. The ability to set up camp without anyone in sight and being self-reliant has its merits. Gone are the hassles associated with overcrowded campsites and loud neighbors, but it does require a properly equipped RV, like a Lance.

Roof Mounted 190W Solar Panel (1 or 2) assists in keeping your battery(s) charged.

Lithium Batteries (1 or 2) are the latest battery technology offering more usable capacity vs. traditional batteries in a lighter, safer package.

3000W Power Inverter converts battery power to 110V power allowing use of select appliances and devices including laptops, CPAP machines and others, while your away from shore power.

LTE/Cell Signal Booster - Boost your cell signal and reach more cell towers, while multiple users enjoy greater coverage and faster on-line speeds with no extra monthly fees.

HERITAGE

Over 50 years of quality and industry-leading innovations have positioned the Lance brand as one of the most sought-after RVs on the road today. Respect is earned and not easily obtained in today's competitive marketplace.

California Roots - From humble beginnings in North Hollywood, CA, in 1965 to our current home in Lancaster, CA, as a result of a fierce dedication towards building the highest quality RVs possible, understanding our customer's needs and insulated from the "me too" designs of our competitors, the Lance brand has become one of the most respected and sought-after brands in the industry.

3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Established 1965 - From humble beginnings in North Hollywood, CA, to our current 13-acre campus home in Lancaster, CA, and recent expansion in Decatur, Lance has kept quality, product innovation and customer care as its primary objectives.

Experienced Staff - From our sales and service staff with a combined 1,000+ years of RV experience assisting customers and dealers to the 400+ production staff with 20+ years of tenure, the Lance Team has the expertise and passion for delivering the highest possible quality product, sales, and service experience in the industry.

STANDARD EQUIPMENT

What other manufacturers call optional, along with Lance quality, our customers enjoy 20+ of the most requested features as standard equipment. Below is a sampling of the more popular options, please see pages 16 & 17 for a complete listing.

Latitude Powered Awning - Provides unobstructed shade with direct response wind sensor & LED light bar.

Flat Bottom Microwave - Offers the latest cooking technology.

Electric Stabilizer Jacks W/Footpad - Make setup & teardown sweat free, keeping your trailer stabilized while parked. - N/A 1475 & 1575

Four Season's Comfort Technology Package - Key features including a heated holding tank design, insulated hatch covers & insulated over-cab bed mat, keep you warmer in the winter and cooler in the summer!

Truma A/C - One of the quietest A/C systems available is now standard equipment on Lance Trailers! Expanding on our partnership with Truma, the Aventa A/C brings efficiency and comfortable TV watching and night mode decibel levels!

4 SEASONS COMFORT

Extending your camping season in comfort, Lance's Four Seasons Comfort Technology package is standard equipment on every Lance. The intentional selection of several vital features combines to ensure you and your loved ones stay comfortable as you explore during the "shoulder seasons"!

Heat is routed into individually insulated holding tanks to keep them, the valves and PEX lines warm.

Water heater bypass & winterizing valves make draining the system for winter storage a breeze.

Hand sewn in our facility, the insulated hatch covers add an additional layer of insulation to vents and sky lights.

Ultra-Lightweight Dual-Pane Acrylic Euro Windows with built in screen and black-out shade, provide a stylish aesthetic with a wide range of adjustability as desired, from the secured vent only position to wide open for maximum airflow.

OPTIONAL EQUIPMENT

It's a short list....Our lengthy list of standard features, which most competitors call "optional," has no equals. The following additional features is a sample of what is available for those seeking the absolute pinnacle of luxury. Please see pages 16 & 17 for a complete listing of optional equipment.

Lance Load Roof Rack - Safely store your canoe, kayak, paddle boards, etc. N/A 1475 & 1575 (Weight Limit 500lbs. Distributed)

Glow Step Revolution Entry Steps - Provides sturdy, adjustable, glow-in-the-dark steps for safe and secure entrance and exit.

Shock Absorbers - Take your suspension to the next level by protecting your trailer against less than perfect roads and providing an even smoother ride. N/A 1475 & 1575

Wireless Rear Camera W/Color Display and Sound - Makes backing up effortless.

LANCE & TRUMA

European technology meets California "cool"! Born and raised in different countries, both rose to the top of their respective categories. With a combined 127 years of experience, two successful legacy brands come together to deliver a "best in class" heating and air conditioning experience. Both are known for industry-leading quality and durability to ensure you create unforgettable times outdoors while Living the Lance Life!

FACTORY TOUR

A behind-the-scenes look at what is "The Lance Difference!" Take a plant tour of Lance Camper Manufacturing Corporation in Lancaster, CA. We want you to see our quality firsthand! Tours are open to all owners, shoppers, and RV enthusiasts who want to discover the Lance difference. Sign up today at lancecamper.com/factory-tour and watch online at www.lancecamper.com/factory-tour.

Shower Dimensions	27" x 27"	21 3/4" x 32"	27" x 27"	21 3/4" x 32"	24" x 36"	27" x 27"	24" x 36"	24" x 36"	24" x 36"	32" x 32"	30" x 36"	24" x 36"

** When looking at cargo capacity you must consider the hitch weight of the trailer and axle capacity. Hitch weight is actually being hauled while the remaining Trailer weight on the axle(s) is being towed. Example if a trailer has a total weight of 4000 pounds with a 400 pound hitch weight that would mean 3600 pounds is on the axle(s). If the axle weight rating is 5200 for this unit you will have 1600 of axle capacity for cargo

DESIGN & CONSTRUCTION

- A.** The roof is covered in energy-star rated synthetic membrane material. Integrated rain gutters and drip spouts prevent the sides of your trailer from streaking.
- B.** Rigid block foam insulation yields maximum “R” value and promotes structural strength.
- C.** Interior walls and cabinetry are constructed of Euro-Ply. This superior product is lighter, formaldehyde free and stronger. Providing both beauty and durability.
- D.** Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.
- E.** Fiberglass upper nose cap with TPO lower gravel guard with LED lighting, combine for beautiful and resilient protection from the abuses of the road.
- F.** Lance uses more expensive Azdel™ in place of Luan wood, virtually eliminating mold and mildew. It's also lighter, carcinogen and formaldehyde free and has better “R” value for superior insulation.
- G.** Lance's aluminum framed superstructure provides for an extremely solid trailer that is also lightweight.
- H.** Heavy duty leaf spring suspension with “Road Armor” equalizer system and optional shock absorber package, absorbs bumps and vibrations resulting in a more comfortable ride with less stress on your trailer. (N/A 1475 & 1575)
- I.** Engineered “I” beam tempered steel chassis provides a reliable and proven platform for years of trouble free operation. (N/A 1475 & 1575)
- J.** Slideout rooms feature smooth, dependable operation. Lighter in weight than other mechanisms, they're also smaller, allowing for more living space.
- K.** The fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.
