- EXTERIOR FLAT TOP GRIDDLE
- PREP STATION
- HIGH PRESSURE SPRAY PORT

Interior Shade System
(Beast Mode Models Only, N/A Classic Models)

INSECT SCREEN

BLACKOUT SHADE

R•Pod is the #1 FASTEST GROWING RV OWNERS GROUP

Growing and building the **R•Pod** Owners Facebook Group has been a passion project for more than twelve years. Having the opportunity to interact with so many amazing people who've all come together because of our love for camping and the **R•Pod** is priceless. I'm honored to be a part of it all and am always ready to support our Owners. It has been the longest, craziest, most rewarding camping experience I've ever had in my life and I'll never be able to express how much it all means to me.

Our **R•Pod** Rallies are phenomenal experiences not to be missed. Amazing food, demos and tours of our Pods, fun games and activities, and our fabulous hosts recommending the must see sites in their area, are just the beginning. As night settles in you can find campfires and stories being told all over the campground. Rallies can be big or small, a few Pod Owners locally meeting to get to know each other or hundreds of Pods showing up from all over North America. We'd love to plan and organize even more events each year and I would love to travel to each and every one of them to support Forest River and our Owners.

Our community is about bringing all of our owners together in one place so we can share the knowledge, photos, and stories of all of our combined trips in a friendly and welcoming place. There is more to owning an **R•Pod** than just having an amazing camper, it welcomes you and your family into the friendliest and most helpful RV community anywhere. It's great seeing that we have **28,000** members and Owners supporting one another, but we want to reach even higher and find as many **R•Pod** Owners as we can and have them join us so they can share in the fellowship and help that we provide. We'll continue to expand our reach and presence in representing the Forest River **R•Pod** for years to come. I can't wait to see what the next twelve years bring.

BEAST MODE PACKAGE

The New **R·Pod** Classic lineup features some of our top selling models at a lighter & more affordable price point. These classic floorplans are built with the same superior construction that you come to expect from **R·Pod** (Aluminum Frame Construction, Azdel Composite Panels, and 1 Piece Fiberglass Roof (171C, 180C, and 190C Only)).

R·Pod's Beast Mode models are fully loaded with brand new standard features! We make it easy to cook at campsites with our popular **Outdoor Bush Kitchen**. Worried about tire safety? We have you covered with TST, a standard **Tire Pressure Monitoring System** with internal sensors mounted inside your tire. Do you like to camp off-grid? You're in luck! All Beast Mode models now come with a **Large Solar Panel**, 30-Amp controller, and a 2000-Watt Inverter which means you can plug in larger appliances (hair dryer, blender, toaster, coffee maker) on any interior outlet. You won't want to miss out on the brand-new **Cosmic Graphite** interior décor and exterior graphics that are **out of this world!**

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.
*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.
** Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
