Cougar 276 EFS Fifth Wheel

# Cougar Welcomes You

## Upscale Style with Carefree Towability

Come into the world of modern RVing with our advanced line of Cougar fifth wheels and travel trailers, engineered for the Western life style. With its aerodynamic front profile and lower center of gravity, Cougar has an established reputation for sleek looks and ease of towing.

Created by RV industry veterans utilizing decades of combined experience, Cougar offers an amazing array of features focused on convenience and style, inside and out.

Since its introduction, Cougar's fifth wheel has outpaced all others in its class, becoming the top-selling mid-profile fifth wheel in America.

For 2004, Cougar's travel trailer, introduced just last year, joins the ranks of top-selling recreational vehicles, offering another choice with a selection of four great floor plans. Cougar travel trailers offer the same style, towability, and attention to detail that have made the Cougar fifth wheel so popular.

For Towability with Style...

Choose Cougar.

Cougar's 276 EFS fifth wheel features a deluxe kitchen with a lower microwave for easy access, a 22-inch oven, and a deep sink with a residential-style, high-arch faucet. You'll enjoy the AM/FM stereo and CD player complete with media storage in the entertainment center. You'll also appreciate Cougar's abundant storage space.

# Designed for the Western RVer...

The Cougar 295 EFS Fifth Wheel offers abundant inside and outside storage, especially useful for extended journeys in rugged terrain. Double insulation in the roof and 12-volt\* lighting in the slideouts are features installed for every Cougar we build. Scenic view windows and a spacious Master Bedroom Suite are other popular features.

Designed in our Pendleton, Oregon, production facility, the Cougar 295 EFS is committed to being the choice of experienced RV'ers in America's Great Western Outdoors.

\*Mandatory Option

New for 2004, Cougar Western Edition models are standard with this ABS underbelly, constructed in sections for easy maintenance access. Cougar has been built to withstand changing weather conditions, and it is durable enough for extended camping use.

## Polar Package™ Now Standard On All Cougar Western Edition Floor Plans

### ▪ Enclosed Underbelly

Constructed with ABS. Strong, lightweight, and durable, ABS is far superior to materials used by our competitors.

### ▪ Heated Holding Tanks

Forced air is directed through ducts to heat all tanks. Dump valves are also heated and enclosed.

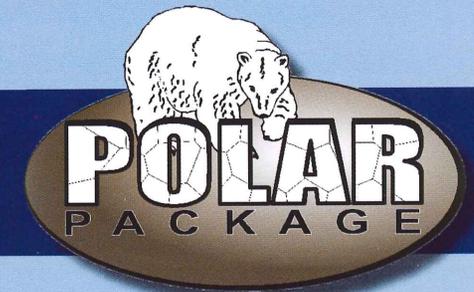

### ▪ Double Insulation in the Roof (R-14)

### ▪ Aerodynamic

Cougar's entire underbelly is enclosed, not just the tank portion as in other brands. Decreased wind resistance adds up to easier towing!

## ROOM FOR EVERYTHING

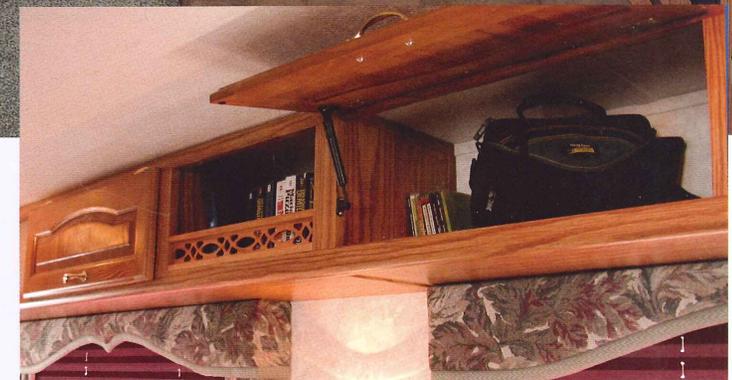

The above photos show Cougar's well planned and plentiful storage space. Top, all drawers are built with residential-style metal glides. (We have included a utensil tray as a standard detail.) The bottom photo shows the easy-access storage under the dinette seat, convenient when you don't want to disturb those who are seated.

## STYLISH COUGAR TRAVEL TRAILERS ARE EASY TO TOW

The 2004 Cougar Travel Trailer is available in several floorplans for those who prefer to tow with an SUV or a light-duty truck. Cougar has a mystique all its own which campers across North America recognize. Whether you choose a travel trailer or a fifth wheel, you'll know it's a Cougar by its sleek exterior, its ease of towing, and its interior warmth, comfort and style. RVing is a way of life... Enjoy it best with Cougar.
