

NITRO XLR

TOY HAULERS

BOLD • VERSATILE • RUGGED

305VL5 HAMMERED COPPER

29UDQL5 BLACK LABEL

Every camping experience is enhanced by a good night sleep after playing hard all day. All Nitro models include a private master bedroom. (N/A 21FQSL)

Our open concept travel trailers provide up to 17'6" of storage space for gear and toys with a generous amount of overhead storage for everything else. 28TQDL is shown in Hammered Copper.

VERSATILITY

At XLR, we've been designing toy haulers since 2006. Today, one thing still remains true – you want a functional layout that works for your unique family. Therefore, every model is carefully engineered and built to maximize the features and space inside your Nitro. Toy haulers today offer customers endless possibilities to enjoy the outdoors. We are intentional about balancing your need for storage AND livability. After all, you deserve to have your cake and eat it too.

Nitro's spacious bathrooms won't cramp your style or your neck with standard skylights and generous headroom. A premium tub surround with built in shelving is great for toiletries. (Select models)

We continue to evolve with our customers and make every attempt to insure each Nitro "garage" has appropriate dimensions for today's motorized toys.

NITRO XLR

TOY HAULERS

Optional solid surface countertop gives you the opportunity to rev up the kitchen of your Nitro.

Our sidewalls and slide out end walls are constructed of welded aluminum, filled with high density block foam insulation, a high gloss fiberglass skin and interior vinyl wall board utilizing an industrial urethane glue and vacuum chamber to complete the lamination process.

DEPENDABILITY

Chewing gum flavor and cell phone batteries don't last...Nitro, however, is built tough.

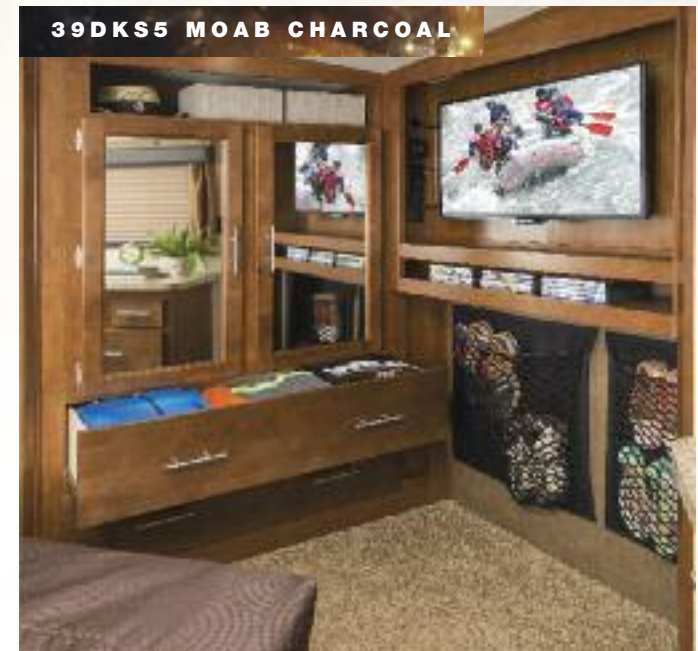

We pay special attention to making sure every XLR is built to withstand today's roads and get you to your destination safely time and time again. We begin by using a heavy duty steel I-beam chassis. In addition, each holding tank is held in place by a steel cradle and our fuel tank is bolted on to the frame, not spot welded with a thin strap like others. Every Nitro uses plywood decking underfoot versus our competitors moisture absorbing OSB. Covering this marine grade plywood, our wood plank vinyl flooring has a layer of "comfort foam" cushioned backing for sound absorption and resistance against cold-creaking. Inside, all drawers utilize metal ball-bearing guides that extend fully so you can see those socks stuffed way in the back.

We build every XLR Nitro starting with a heavy duty steel powder coated I-beam chassis. Steel plates are welded to the frame to secure our 5,000 lb tie downs.

XLR partners with some of the largest and most reputable names in the industry:

39DKS5 MOAB CHARCOAL

The 39DKS5's V-front design adds 72 cu. ft. of usable space to your bedroom. There's no need to leave anything at home with the unique entertainment center, huge drawers, and ample wardrobe.

305VL5 HAMMERED COPPER

NITRO
XLR

Pinch me.

No, you're not dreaming. This 305VL5 comes complete with stainless steel finishes, a double basin sink, optional solid surface countertops, and enough doors and drawers to accommodate the "over-packer." The design of our Nitro fifth wheels naturally create multiple zones for dining and living so everyone can maximize their personal space. Put your feet up and lean back in one of our custom designed reclining sofas while the kids and their new campground buddies hang out on the other side of our noise-reducing sliding glass patio door.

Nitro fifth wheels offer true convenience with a sealed, all-in-one utility docking station.

VALUE

You work hard for your money and deserve to get the most for it. We've worked just as hard to give you the same comfort, convenience, and quality construction of high end toy haulers without the inevitable "sticker shock". Nitro travel trailers and fifth wheels are the epitome of value. Taking advantage of our company's innovative design and streamlined production, we're able to offer features and construction in your Nitro that years ago were unimaginable in this price range.

Stainless steel finishes used to be reserved for only the elite hauler enthusiasts...not anymore.

Space is a premium and our travel trailer bathrooms take it to the max - huge headroom, rounded curtain rod, and plenty of room around the commode.

King master suites (select models) eliminate any excuse not to sleep in tomorrow morning.

Our collapsible ladder folds flat against the sidewall to avoid it banging around inside the garage.

24FQSL MOAB CHARCOAL

Optional stylish euro recliners with table and larger window are available on the 21FQSL, 24FQSL, & 28TQDL.

The 24FQSL is a winner with over 15' of floor space AND it's half-ton towable! This popular floor plan has an unsurpassed amount of overhead storage, a master bedroom with it's own door, and a spacious dining area at the rear. The standard rollover sofas also convert into comfortable sleeping quarters for kids or guests.

NITRO FIFTH WHEELS

XLR

Nitro fifth wheels offer comfortable, spacious bedrooms, abundant wardrobe storage, queen/king size beds, and up to 16' of additional rear living space. All of this in a price point that doesn't break the bank. Your rear living space has an endless number of possibilities.

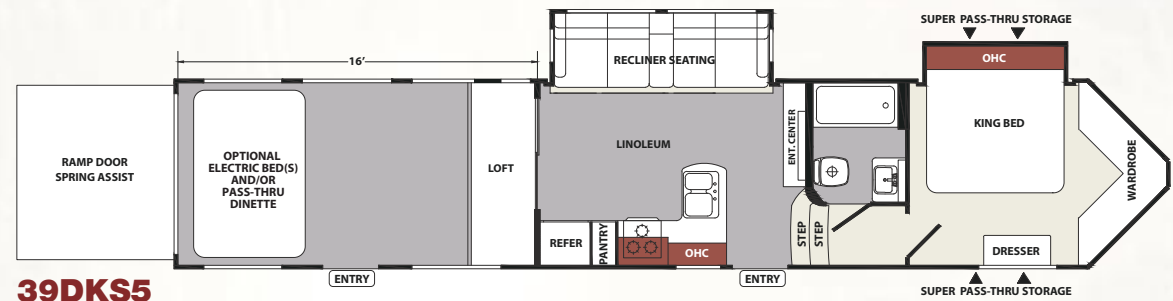

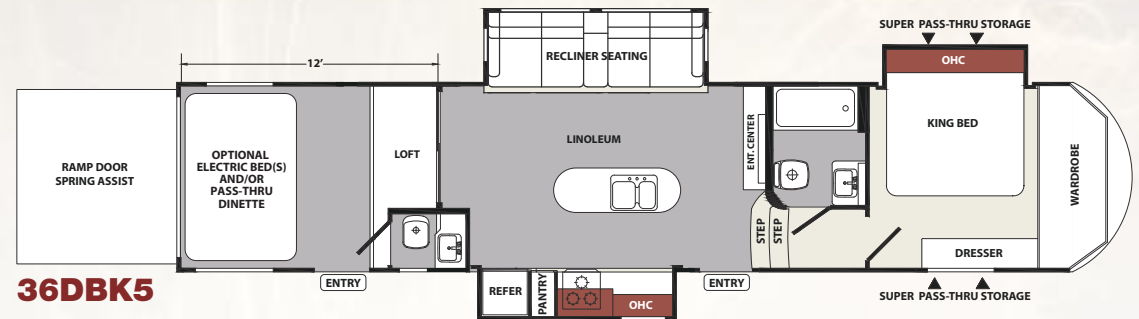

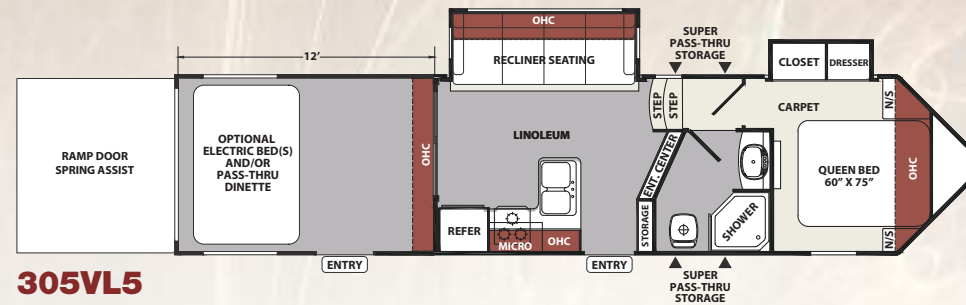

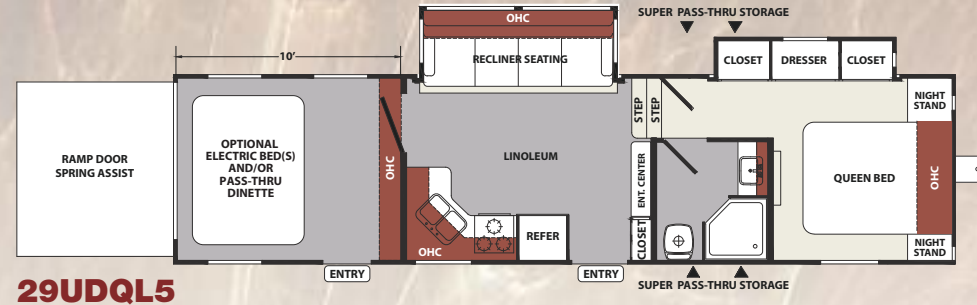

Make a quick pit stop before you load all your gear into the garage (36DBK5 rear bath).

The optional electric dinette is perfect for dining, playing cards, or just hanging out.

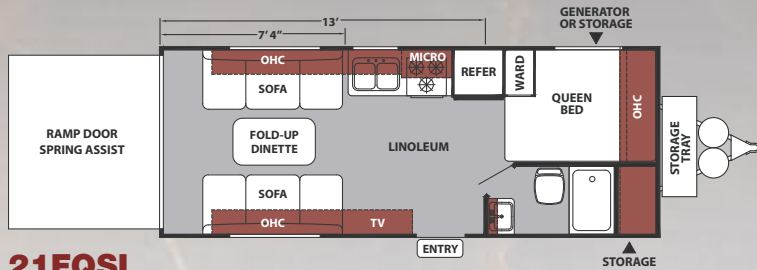

At the end of the day, your Nitro converts into a dual queen bed bunkhouse in a matter of minutes.

The bathroom in the 28TQDL is bigger than most fifth wheels bathrooms. With a full garden shower, generous headroom, medicine cabinet, and dual entrances it's easy to forget you're in a travel trailer.

TOY HAULERS

NITRO XLR

The Nitro 31FQSL travel trailer is the best of both worlds... dual opposing slides provide plenty of entertaining/lounging space without sacrificing your truck bed. And the 11 ft. garage accommodates today's larger toys.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!

24/7 EMERGENCY ROADSIDE ASSISTANCE

For a worry-free ownership experience

Forest River includes one year of Coach-Net RV Technical & Roadside Assistance with each RV purchase. Whether new to the RV lifestyle or an experienced RV enthusiast, Forest River owners have 24/7 access to technical, operational and emergency road service coverage throughout the US & Canada. Coach-Net's fast, dependable service is just a phone call away.
