We purchased our Keystone Sprinter Campfire 31FWMB in June 2019 and within 30 days of our purchase we had jumped into full-time RVing with our then 18-month-old daughter and our 2 dogs. It's easily the greatest decision we ever made. We love that we can tow our 36' fifth wheel tirelessly with our older Ram 3500 because it weighs in at under 13,000 lbs fully loaded with everything we own on board and still allows us the luxury of 2 bedrooms with doors. Lennon loves her mid bunk with plenty of room for toy storage and our favorite feature is our big back window allowing tons of light into our kitchen/living. There's so much light coming through in fact that I was able to keep many of my houseplants from our sticks and bricks. We just upgraded our solar with 3 Lithium-ion batteries from Dragonfly Energy so that we can Camp Better and we're looking forward to the many milestones of memories ahead with our Keystone RV!
