R•Pod is the #1 FASTEST GROWING RV OWNERS GROUP!

Growing and building the **R•Pod** Owners Facebook Group has been a passion project for more than twelve years. Having the opportunity to interact with so many amazing people who've all come together because of our love for camping and the **R•Pod** is priceless. I'm honored to be a part of it all and am always ready to support our Owners. It has been the longest, craziest, most rewarding camping experience I've ever had in my life and I'll never be able to express how much it all means to me.

Our **R•Pod** Rallies are phenomenal experiences not to be missed. Amazing food, demos and tours of our Pods, fun games and activities, and our fabulous hosts recommending the must-see sites in their area, are just the beginning. As night settles in you can find campfires and stories being told all over the campground. Rallies can be big or small—a few Pod Owners locally meeting to get to know each other or hundreds of Pods showing up from all over North America. We'd love to plan and organize even more events each year and I would love to travel to each and every one of them to support Forest River and our Owners.

Our community is about bringing all of our owners together in one place so we can share the knowledge, photos, and stories of all of our combined trips in a friendly and welcoming place. There is more to owning an **R•Pod** than just having an amazing camper, it welcomes you and your family into the friendliest and most helpful RV community anywhere. It's great seeing that we have 30,000 members and Owners supporting one another, but we want to reach even higher and find as many **R•Pod** Owners as we can and have them join us so they can share in the fellowship and help that we provide. We'll continue to expand our reach and presence in representing the Forest River **R•Pod** for years to come. I can't wait to see what the next twelve years bring.

Sincerely,

Travis Mattingly
R•Pod Owners Group Admin

. . . . with AZDEL composite panels **"ONBOARD."**

Azdel's proven technology has been used in RVs since 2006.

AZDEL Composite Panels have been used in RV exterior and interior sidewall, ceilings, and roofs since 2006.

AZDEL Composite Panels are constructed using a blend of polypropylene and fiberglass to create a strong, lightweight, quiet, water resistant, temperature resistant, odorless and environmentally friendly wall that will increase the life of your RV.

*Towing references listed above are only estimates and are subject to change. Please refer to and follow the specific guidelines and towing capabilities listed in your vehicle's owner's manual before towing any RV.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Download our Forest River mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Forest River product.

Ranging from "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away. View the online manual at www.forestriverinc.com/OnlineManual or download our FREE app from the App Store or Google Play!

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty black and gray tanks for more cargo capacity.

*Estimated Average based on standard build optional equipment. ** Estimated average based on standard build optional equipment. Values estimated at time of printing.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
