Winnebago VIEW & VIEW PROFILE

Power and efficiency. To those who believe you have to sacrifice one to get the other, let us introduce the 2010 Winnebago View® and View Profile. Built on a nimble Dodge®/Mercedes-Benz® Sprinter chassis and powered by a Mercedes-Benz 3.0L V6 turbodiesel engine, the View and View Profile are the embodiment of Winnebago Industries' revolutionary vision—a vision that leads the motor home industry with innovation. Inside, the View incorporates SmartSpace™ design to create streamlined, feature-filled floorplans, including full-wall slideouts on the 24A and 24K. The View Profile uses the same philosophy to create an easy-to-drive 24-foot motor home that lives larger than its size suggests. See the country from a new perspective in the 2010 Winnebago View or View Profile.

Plenty to Love

The View interior is teeming with comfort, style and versatility, such as cab seats that swivel to face the living area (standard on 24A, 24P and available on 24K, 24J). The centrally located skylight creates an open and airy feel while providing added climate control with an easy-to-use vent. You'll find excellent sleeping accommodations with beds in the overhead bunk, Comfort Sofa Sleeper and BenchMark® dinette, depending on your floorplan.

Choose the available overhead entertainment center (NA 24A) and available 300-watt inverter to enjoy the 32" LCD TV when shoreline or generator power is not available. A stereo system with CD/DVD player comes standard, providing hours of entertainment on the road.

Bunk The standard bunk lifts up on gas struts to stay up and out of the way until needed. The available entertainment center includes a 32" TV and extra storage.

GoWinnebago.com Watch key feature videos, take interactive tours, see the latest promotional offers and a whole lot more at GoWinnebago.com.

Comfort Sofa Sleeper

The sofa/sleeper you've always wanted is here. Never before has converting your sofa into a bed been so easy—or this comfortable.

1. By day, it's a plush sofa.

2. A hidden drawer stores bed linens.

3. At night, the sofa easily folds out into a bed.

4. The mattress quickly inflates and deflates using a built-in power source.

Make it Yours

The galley makes quick work of meal preparation and cleanup with a three-burner range and a microwave/convection oven. A solid wood sink cover expands your countertop space and an available water filtration system delivers filtered cold water to the galley faucet.

The cab area also offers plenty of advanced features and custom options. It starts with the RV Radio®, which includes a CD player, weather band, remote and MP3 input. Add the Sirius® Plug-N-Play satellite radio system and receive a six-month complimentary subscription. The Plug-N-Play system includes a second docking port for your tow vehicle and an iPod interface connector that allows you to play and operate your iPod through the RV Radio.

Full-Extension Slides Drawers extend fully for easy access. It's part of the SmartSpace design philosophy that increases storage capacity and makes the most of the available space.

Touch Screen An available new 6.5" touch screen incorporates the rearview monitor and controls the RV Radio. A handheld remote is also included.

BenchMark The BenchMark full comfort dinette, found on the 24K and 24J, offers innerspring cushions, hidden storage, and converts quickly into a comfortable bed.

VIEW PROFILE

2010

24DL Timber Hill with Honey Cherry

A New Kind of Motor Home

The View Profile raises the bar for Class C functionality with cab seats that turn to face the living area and other SmartSpace features designed to make you feel at home on the road. In fact, there is comfortable seating for up to six people for dinners, game night or just to watch TV. The large skylight provides an even more open atmosphere. The bedroom gives you another place to relax thanks to a slideout and a 19" LCD TV.

24DL Timber Hill with Honey Cherry

Bedroom The stylish View Profile bedroom features a slideout to create a spacious retreat with a walk-around queen-size bed.

Sink The sink is sized to accommodate large pots and pans. The faucet folds down allowing the sink cover to close, increasing your countertop space.

See What's Cooking

RV galley design gets a fresh look in the View Profile. Using SmartSpace philosophy, the View Profile packs a full-featured kitchen, including a refrigerator/freezer, microwave oven and a two-burner range with hood, into a compact footprint that conserves space for the living area. Yet, you will find plenty of room to work thanks to flip-up covers for the sink and range. The attractive cabinetry even features curved elements to maximize storage.

View Profile 24DL

Galley Find everything you need to express your inner chef in this full-featured galley.

Travel Ready

The View and View Profile boast several thoughtful conveniences that make your travels more enjoyable, such as electric entrance door steps, power locks, and power mirrors with defrost and integrated turn signals.

At the campsite you'll enjoy relaxing in the shade of the available awning. Liven up the party by choosing the available exterior speakers. They are connected to the coach stereo system, which you can control from your lawn chair via remote.

Personalize your View by selecting from standard graphics, available deluxe graphics or available full-body paint. The View Profile comes standard with full-body paint. Optional features include a rearview monitor system and an LP or diesel generator for plenty of A/C power on those hot summer days. Built-in cab window blinds come standard in the 24DL and are available in all other models.

Hitch The 5,000-lb. hitch⁵ with 7-pin wiring is perfect for your tow vehicle.

SMART STORAGE An innovative exterior storage compartment on the 24J utilizes our Smart Storage™ design philosophy and expands to accommodate larger items.

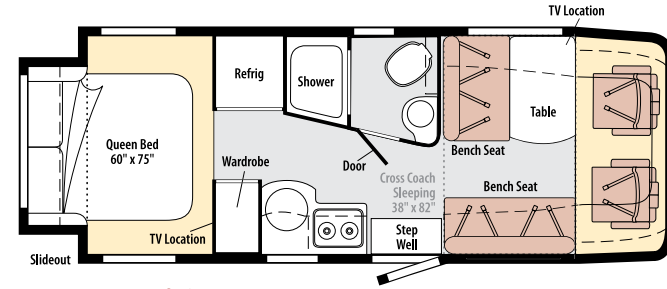

TRUELEVEL TrueLevel™ uses sonar technology to measure tank levels without probes for accurate readings every time.

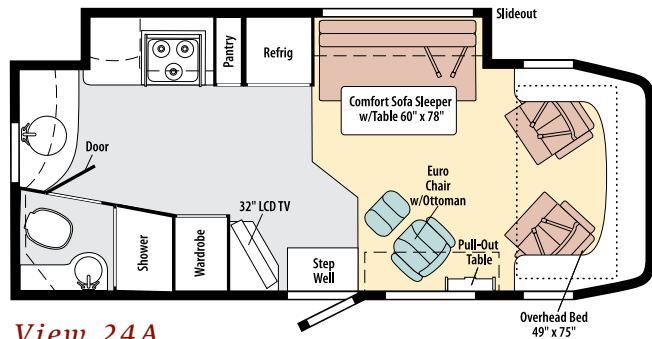

Service Center Color-coded labels and the QuickPort® service connection hatch (NA 24) or 24DL) make hookups a snap. The wash station makes cleanups easy and comes standard on the View Profile and is available on the View.

Floorplans

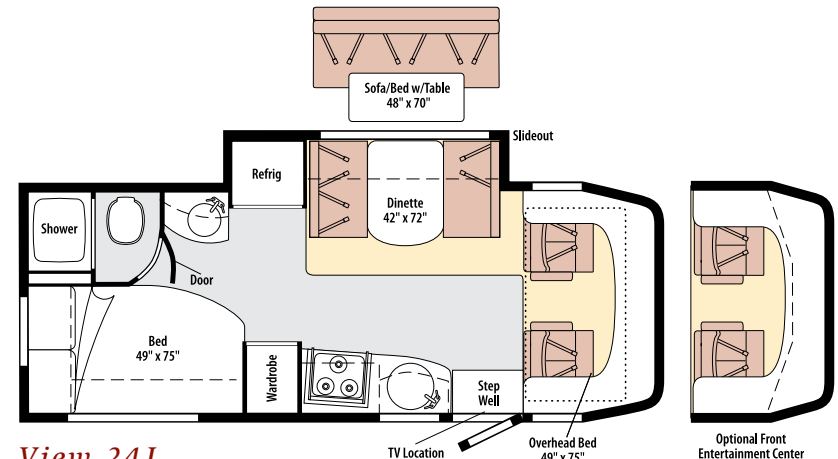

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at GoWinnebago.com.

NA Not Available

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

Not all items available in combination. See dealer for details.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.

Built by Winnebago Industries. Built to last.

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and more than fifty years of RV innovation to the design and construction of every motor home. It's all a part of SuperStructure®, our exclusive system of proprietary structural components that instills in each motor home improved strength and durability.

Solid Foundation Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Our engineers enhance the handling and stability by taking special care to properly distribute the weight of all components.

Interlocking Joints The floor, sidewalls and roof are all integrally connected using interlocking joints. This ensures the body is a cohesive unit with maximum strength and durability.

Attention to Detail Whether it's sending every View and View Profile through a high-pressure water tunnel to check for leaks or labeling individual wires and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

Strong as Steel Key appliances and cabinetry are secured to a metal substructure for added stability and safety.

E-Coating Winnebago Industries employs an automotive-style dip tank process to apply an advanced electro-deposition coating on critical steel components for corrosion protection.

Thermo-Panel® Sidewalls Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density block-foam insulation and aluminum support structures to create some of the most long-lasting, lightweight sidewalls in the industry.

Winnebago 1-year-old fiberglass roof

Competitor's 1-year-old rubber roof

Fiberglass Roof The View and View Profile feature a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

GoWinnebago.com
Visit us on the web for more information on all of our motor homes, the latest product updates and a host of web-exclusive content.

Take a Tour We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

Recognized Quality The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

Committed to Service We back our motor homes with the industry's best service after the sale:

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- 10-year standard limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program

- RV Technical Assistance Hotline
- RV Service Appointment Assistance
- Emergency Trip Interruption
- Emergency Message Service
- Nationwide Trip Routing
- Fee-Free Travelers Cheques

- TripSaver Fast Track Parts guarantees that in-stock warranty parts ship directly to your dealer within 24 hours
- National dealer service network

WIT Club Winnebago owners are like family. Joining the Winnebago-Itasca Travelers Club is a great way to meet and travel with other Winnebago enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
