INTELLIGENT.

» **in-tel-li-gent**, *adj. smart; clever; sensible or rational; showing or resulting from an ability to think and understand things clearly and logically.*

Prime Time Manufacturing is proud to offer Sanibel — a luxury fifth wheel built to stand unequivocally on its own with a level of intelligence that far exceeds the status quo. Our objective for Sanibel is simple: to outperform by every measure and to invoke an experience that anticipates and satisfies your every need with thoughtful and intelligent design. From its well-designed, spacious interior, to its modern amenities and extra creature comforts, the Sanibel is your home away from home.

Within minutes of entering, Sanibel transforms you. The interior is crafted around comfort, sight, and convenience. Modern cabinetry, residential appointments, and rich textures create a sophisticated space of warmth and elegance. Fabrics are specially treated to provide the softest touch and breathability for comfort in heat or cold. Every element of Sanibel will create a personal connection with the user that focuses on enjoyment and satisfaction.

LIVING ROOM.

The Intelligent Lighting Package

When choosing lighting for Sanibel, we took the same uncompromising approach to intelligent design. For instance, the “Stay Cool” LED lights found at the critical seating areas offer both a stunning presence and smarter thinking. Along with lower energy consumption and longer life, the LEDs emit significantly less heat, helping to maximize your comfort both day and night.

The Intelligent Kitchen!

The Intelligent Kitchen is symbolic of the genius behind Sanibel's inspiration. Work spaces and storage areas have been carefully designed and positioned for instinctive reach and use. Premium components have been selected for long term durability. An advanced appliance package will indulge your residential desires while brilliant cabinet doors and drawers made from Native American Cherry Wood will welcome you with handsome looks. The Intelligent Kitchen, like each and every detail of the Sanibel, has been examined and questioned to ultimately provide a single result — the highest level of owner satisfaction.

BEDROOM.

All bedrooms are NOT created equal. LED lights, "Quiet Cool" ducted air conditioning, and extra storage details, make the Sanibel bedroom an Intelligent choice.

The Intelligent Bedroom!

The expansive interior of the Sanibel was astutely designed to adapt its volume to your needs. A quick examination under the king size bed will expose a massive storage area that is up to 300% larger. Shoe storage in the wardrobe, six large vanity drawers, and multiple overhead cabinets are additional examples of intelligent space utilization. However, the creation of space was also a priority with Sanibel. That's why you will find extra "convenience inches" in the bed slide and large "hidden" drawers recessed into the front wall. Our designers even added radius corners to the Denver Mattress® to assist in traffic flow.

NEW.

Sanibel's design team is constantly looking for ways to improve upon the success of North America's favorite luxury fifth wheel. The all-new Sanibel 3800 and 3801 with residential refrigerator are perfect examples of these efforts. This innovative floorplan utilizes every available inch of the interior to maximize comfort, livability, and storage. You might find yourself thinking, "this is the best floorplan I've ever seen!"

ADDITIONAL SPECIFICATIONS:

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
