Kodiak is the leader in ultra-lite technology. With units light enough to be towed by most SUV's minivans, crossovers and light trucks, we're sure to have the model that best fits your family's needs.

But, just because Kodiak is an ultra-lite doesn't mean it's light on storage or features. With spacious countertops, well-designed cabinets and oversized pass-thru exterior storage compartments, it's easy to take everything along on your next adventure.

Ultra-Lite Design Means Better Fuel Economy

Aerodynamic Profile

Kodiak is specifically designed to be towed by most light trucks and sport utility vehicles. The aerodynamic profile pushes air up the front wall and over the roof, improving towing ease and fuel economy.

5-Way Lamination

6-Way WELDED ALUMINUM Super Structure

ENCLOSED & HEATED UNDERBELLY

Kodiak's enclosed and heated underbelly prevents water tanks from freezing, and protects the tanks and floor from road damage.

Real Weights!

Did you know that every unit is weighed as it leaves the production line? Our certified Acu-Weight even includes options!

Most competitors publish only a base weight that doesn't include options.

Make sure that you know what the *real weight* is before you buy your next ultra-lite.
