RAPTOR

2008 Luxury Sport Utility

Keystone RV Company created the Key Performance company with a simple, clear mission:

**Build the most innovative, striking
and functional Sport Utility
Vehicles on the market today.**

We are proud that every Raptor floor plan is the result of feedback from experienced toy hauler users and others who enjoy active, adventurous life styles. We develop our products around their wants, needs, and desires.

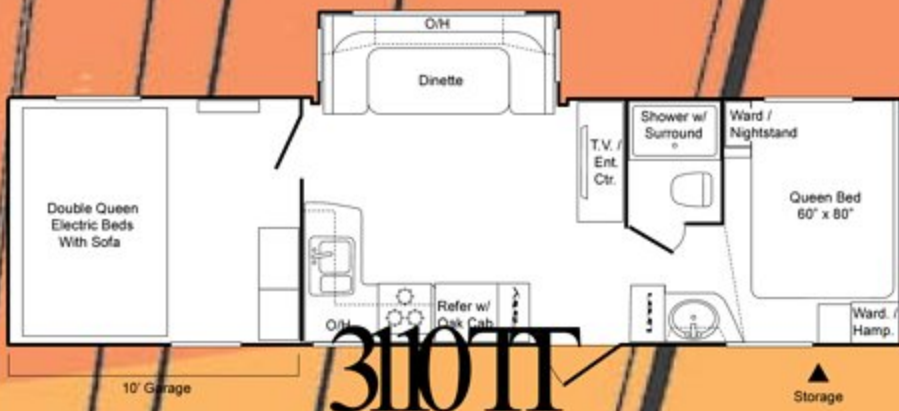

We learned from toy hauling enthusiasts that comfort, style, and top-notch performance are absolute requirements for THE ultimate luxury SUT. No one wants to live in a dressed-up garage. These ideas created our Battle Cry,

“LIVING WITH A GARAGE, NOT IN ONE.”

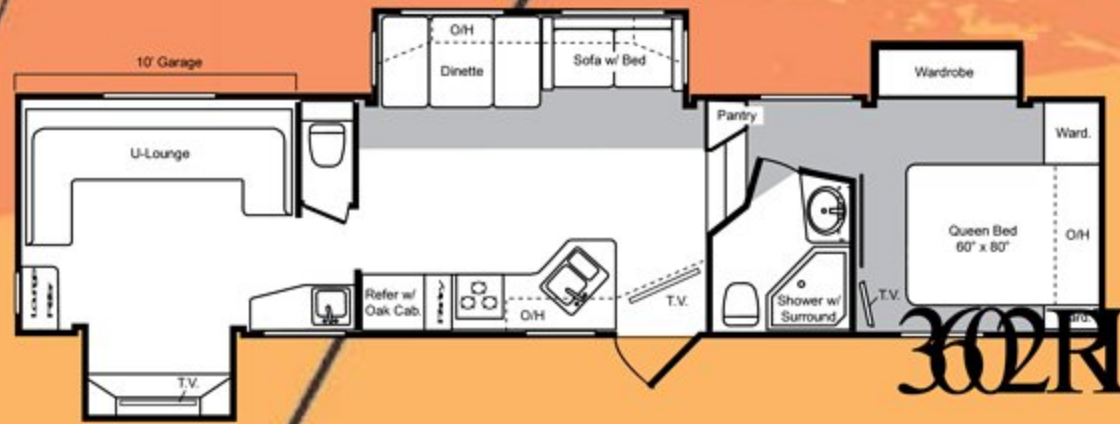

Left: Comfort and style are the key highlights to this expanded dining-room area in the 299 Fifth Wheel and 3110 Travel Trailer. Go ahead and invite the whole gang. There's plenty of room around Raptor's cushy U-shaped-dinette.

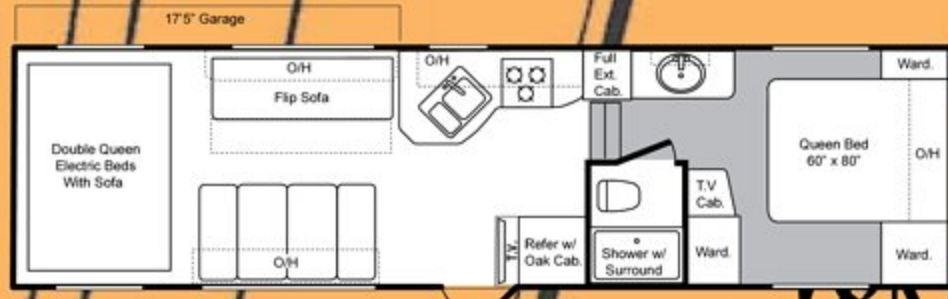

Right: Raptor's awesome U-shaped-dinette converts easily into a comfortable tricked out bed with enough room for two. Store your gear under the bed or in the overhead cabinets. (299 FW, 3110 TT)
