AND TRAVEL TRAILERS

# COUGAR

**Keystone RV  
Company**

# ICONIC COMPANY

**COLE  
DAVIS**

Founder, Keystone RV Company  
Started Keystone RV with 110 employees  
and 1 production line in 1996.

**OUR**

Keystone a company on a mission

When Cole Davis founded Keystone RV in 1996 his vision was clear: Build a quality RV loaded with features priced thousands less than other RVs on the market. To accomplish his goal, Cole built a strong team, focused on keeping overhead low, and empowered employees closest to the customer to make decisions. Within a few short months after opening the doors, Keystone produced its very first camper. Delivering big on quality, features and value, the public fell in love and a star was born.

As customers appetite skyrocketed, new Keystone models were added to satisfy growing customer demand. Along with this tremendous growth came the need for expanded production. To meet this need, more manufacturing plants were built and staffed. By the beginning of 2000, Keystone was leading the industry in fifth wheel and trailer sales. Today, Keystone RV Company has grown to encompass over 1 million square feet of manufacturing space with facilities in Goshen, Indiana and Pendleton, Oregon. While Keystone is no longer the small “start up” we once were, our mission has remained true to Cole’s vision—“Do the job right and make sure we deliver a quality product every time.”

✓ **MOST RELIABLE PRODUCTS IN THE INDUSTRY**

✓ **QUALITY, PROCESS DRIVEN MANUFACTURING**

✓ **CONSUMER FOCUSED PRODUCTS AND SERVICE**

✓ **MOST “DEALER SATISFACTION INDEX” AWARDED RECIPIENT**

## ICONIC BRAND

At the heart of Cougars philosophy is the belief that if we listen to our customers, and execute accordingly, the crucial combination of quality, design, weight, luxury and price, is to offer an unparalleled product. A product that will provide the finest means for families, both young and old, to create memories year after year! From growing families, to full timers, Cougar vows to provide the top travel trailer and fifth wheel floor plans and features to suit each dynamic, and maximize their unique camping experience. Growing with Cougar from a mid-level travel trailer, to a 40 foot fifth wheel, is our forte! By avoiding fads and trends, we have been able to focus more on innovation, quality, style and affordability. These attributes are what our customers rely on, and appreciate, and are the hallmarks of America's #1 selling brand. Cougar is the choice of yesterday, today and tomorrow!

Cougar remains focused on the growing popularity of lightweight luxury vehicles, and the ease of tow ability. We have ongoing commitment to create a stress free journey for all who choose to explore with us. We make it our goal that our current customers choose us for each of their subsequent voyages. Come grow with us and explore the country in a Cougar RV! Where you are always a step ahead, and luxury and lightweight meet!

# BUILT

## FOR THE LONG HAUL

**INNOVATION THAT STARTS WITH A SOLID FOUNDATION**

[WWW.KEYSTONERV.COM](http://WWW.KEYSTONERV.COM)

**Keystone RV Company**

**WIRED FOR PERFORMANCE**

**THE ONLY TOWABLE MANUFACTURER TO INCORPORATE COLOR-CODED AND NUMBERED ELECTRICAL WIRING ON ALL PRODUCTS**

- Creates a clean, well organized wiring layout
- Makes it easy to trace electrical circuits and saves troubleshooting time

**TUF-LOK THERMOPLASTIC COUPLERS FORM A PERMANENT, CRUSH-RESISTANT SEAL IN YOUR AIR-CONDITIONING DUCT**

- Securely joins ductwork and air-conditioning units
- Crush-resistant design won't pull apart due to rough roads, heat and stress
- Drastically reduces chilled-air leaks to boost cooling efficiency and comfort
- Circular racetrack style ducting improves performance over competitors that use "figure 8" style that causes additional resistance and turbulence.

**RESIDENTIAL IN-FLOOR HEAT-DUCT SYSTEM JUST LIKE IN YOUR HOME**

- A. In-floor, hot air vents spaced for greatest comfort, distributes heat evenly and warms the floor
- B. Competitors heat vent locations are determined by cabinets, causing hot and cold spots. Hot air is supplied through restrictive hoses.

UP TO 7 LAYERS OF PROTECTION

**MOST CAPS ARE FULLY PAINTED AND CLEAR-COATED IN OUR IN-HOUSE STATE OF THE ART PAINT FACILITY**

- Backed by 3-year fade and chalk limited warranty
- KeyGuard chip and rock protection is applied to the lower front area

TRU-FIT TECHNOLOGY

**TRU-FIT FIVE-POINT SLIDE ROOM CONSTRUCTION BACKED BY THE INDUSTRY'S-BEST 3-YEAR LIMITED STRUCTURAL WARRANTY**

- Rain channels direct rain away from the slide openings
- Exterior bulb-seals in a locking track stay secure through extreme heat and cold
- Composite slide-room "glide" bar enables the room to move with no binding
- Reinforced roof, walls and floor
- Beefed-up aluminum header above slide room for greater strength

**KEYSTONE EXCLUSIVE ROAD ARMOR SUSPENSION**

- 360 degrees of anti-shock protection
- 6 total inches of travel for unparalleled protection
- During testing, Road Armor decreased chatter by 31.7%

**CELEBRATING 20 YEARS OF EXCELLENCE**

- Launched in 1998, the Keystone Cougar product line was the first introduction into the emerging "half ton light" series. Today, Cougar is the leading producer of mid-profile fifth wheels and is know as a product leader in innovation, quality and affordability.
- Our commitment to delivering the best product in the industry makes Cougar FIRST in its class.

**ZERO DEGREE TESTED & RATED**

**ZERO DEGREE TESTED**

- Cougar has been zero degree tested which allows you to camp to zero degrees without worry of your tanks or water lines freezing up. (Testing and certification achieved under a constant controlled environment.)
- We also add upgraded insulation to our slide-out floors to control the hot and cold exchange and unlike our competition. We merge our skirt metal to the I-Beam for complete enclosure of your fifth wheel underbelly.

**EVERY COUGAR FIFTH WHEEL HAS PATENTED MAX TURN TECHNOLOGY**

COUGAR PATENTED MAX TURN TECHNOLOGY		
Length of Truck Bed	Standard Fifth Wheel Hitch	Sliding Fifth Wheel Hitch
6' 6"	83.33°	95.66°

Combining focused design and unique product specifications, Max Turn Technology is the leader in optimum turn radius. Unlike the competition, Cougar uses continuous contoured tubular steel for optimum strength and support behind the engineered tapered fiberglass front cap. Also, Cougar is equipped with a heavy duty extended hitch. Combined - Max Turn Technology makes turning and maneuvering a breeze.

**COUGAR'S RACETRACK DUCTING**

When equipped with an optional second A/C in bedroom, Race Track ducting allows for evenly distributed airflow from the front to the back of the fifth wheel regardless of which A/C is running.

**COMPETITION**

Typical ducting creates uneven airflow which causes less cooling efficiency.

**VS.**

# O V A T I O N

## COUGAR

# 95.66°

## COMPETITION

Cougar's patented Max Turn Technology provides the most optimal turn radius in its category without the need for complicated and expensive OEM swivel hitch pins that require inconvenient periodic maintenance. For peace of mind, Max Turn ensures you don't end up in a compromised truck position with your fifth wheel.

## INNOVATION VS. IMITATION

Cougar has led the mid-profile fifth wheel segment for 17 years, because of customer focused superior engineering and processes that has given nearly **150,000 CUSTOMERS** positive camping experiences and memories over the past **20 YEARS**. When choosing your next fifth wheel or travel trailer, accept nothing but the best from the leaders in the Industry. COUGAR!

## PATENT-PENDING DESIGN

### FRONT WINDSHIELD DESIGN

Keystone's unique patent-pending 5 point automotive windshield design is made of two curved sheets of glass with a layer of plastic laminated in between for safety. The windshield is then bonded in to the front cap for a permanent, waterproof installation.

PATENTED  
**HITCH VISION**  
"NO LOOKING BACK"

Cougar's patented Hitch Vision provides convenience and ease of hitching your fifth wheel. No other manufacturer offers this exclusive feature. Once you've used Hitch Vision, there's "no looking back" to the inconvenience of turning or straining to see your fifth wheel.

## BEST-IN-CLASS PASS-THRU STORAGE

78 cu. ft. of unobstructed pass-thru storage in mid-profile fifth wheels
