KEY PERFORMANCE

BLE PRICE — LUXURY ON THE MOVE!

LIVING WITH A GARAGE NOT IN ONE.

Keystone RV Company, the nation's largest manufacturer of travel trailers and fifth wheels, created Key Performance as a new company with a simple, clear vision:

To Build the Most Innovative, Functional, Comfortable and Eye-Popping Sport Utility Vehicles on the Market Today.

We are proud that every Raptor floor plan is the result of actual feedback from experienced toy hauler users and others who enjoy active, adventurous life styles. We then develop new products around their many ideas.

We learned from you, the toy hauling enthusiast, that you want to live in comfort and style, not in a dressed-up garage for your toys or other cargo. And, you are looking for performance. These ideas created our Battle Cry, "LIVING WITH A GARAGE, NOT IN ONE."

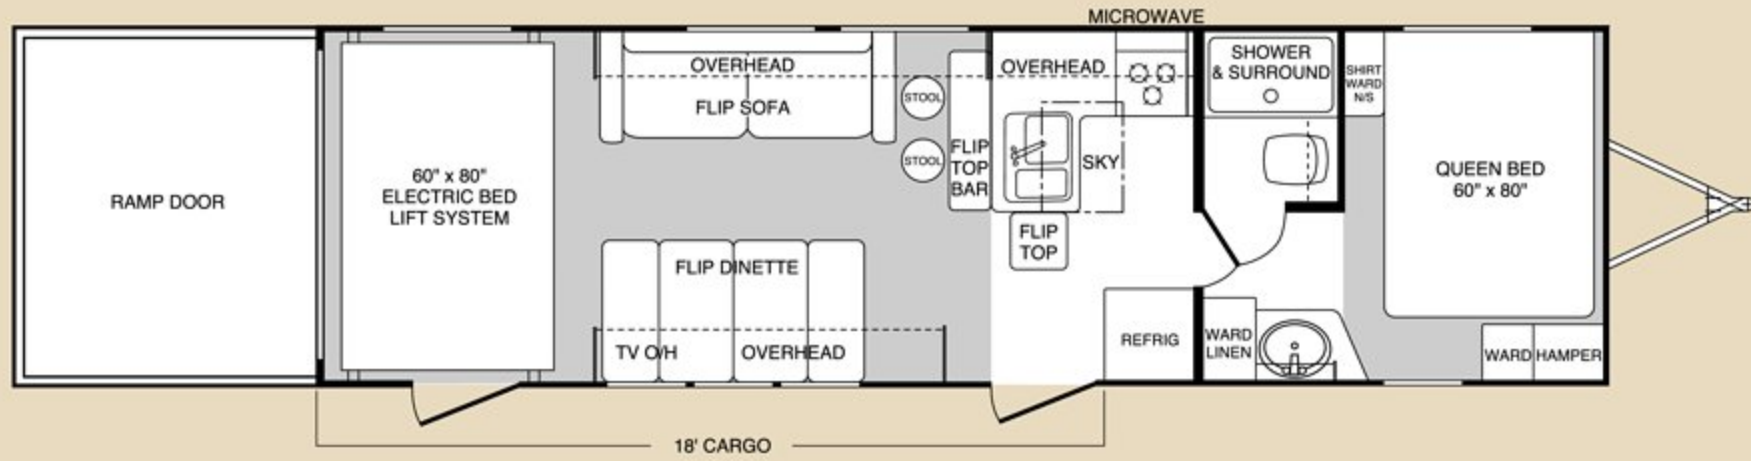

We invite you to experience the next evolution in Luxury Sport Utility Trailers... we proudly present the 2007 Raptor.

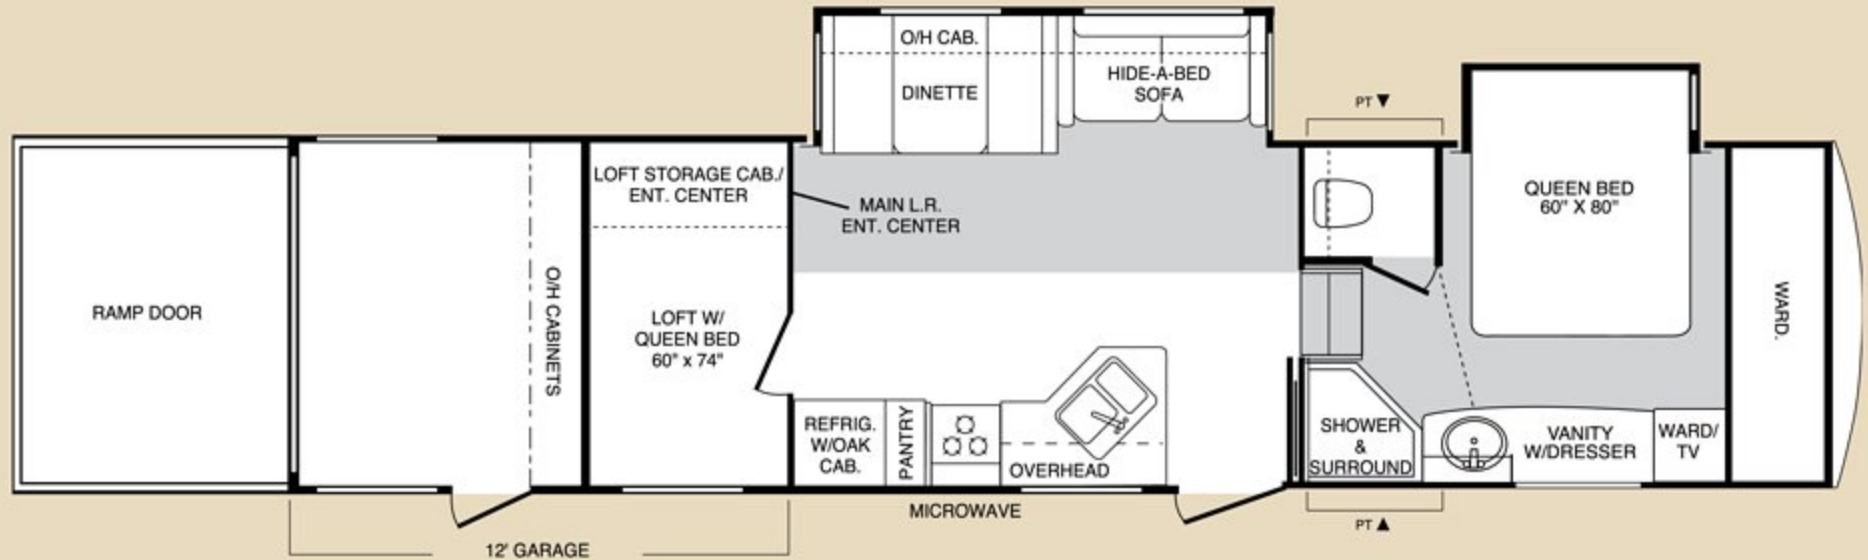

Step into Raptor's Single-Level Master Suite, found in all Bed-Slide fifth wheels. A welcome retreat after a day on the trails, it features a full queen bed. The roomy dresser, a separate closet for your riding gear and the matching vanity create a complete wall of storage. The neo-angle shower includes a skylight for extra light and headroom.
