Manufacturing

A Higher Standard **CRUSADER**

CRUSADER

by PRIME TIME Mfg.

Within us all, there's a calling to achieve ever-greater things; a search for a higher standard. In creating Crusader, we asked our engineers and design team to throw caution to the wind and engage in serious "outside the box" thinking. We challenged them to think beyond the status quo and reach for product innovations not currently offered.

We said, "Make Crusader a new standard in fifth wheels." Needless to say, they took the challenge to heart.

The result of their efforts represents a new standard in fifth wheels — A HIGHER STANDARD — Crusader.

315RST — Decor shown in Café

Crusader kitchens are by far the best in its class! We have designed our kitchens with large countertop preparation areas, enormous amounts of storage and large pantries. Crusader kitchens are appointed with many modern amenities such as solid surface countertops, stainless steel sinks, pull out sprayer faucet, and large storage drawers. Crusader kitchens are definitely built to a **Higher Standard!**

341RST – Decor shown in Portobello

Crusader is unlike any fifth wheel in its class. On the outside, our fifth wheel experts have combined advanced engineering and design with best-in-class features to create a fifth wheel that looks great, tows easily, and maximizes convenience. On the inside, hardwood cabinetry and solid surface kitchen countertops carefully work together to make a lasting impression. Your comfort and relaxation will be guaranteed with an abundance of upgrades such as Furrion residential cooktop and oven, residential furniture and Ground Control Automatic Leveling System. Finally, your long-term peace of mind is assured with Crusader's durable ETERNABOND® Construction, 50 AMP service and our custom 65 point pre-delivery inspection on 100 percent of our units.

A HIGHER STANDARD

Crusader 319RKT Bedroom

Crusader bedrooms are built for comfort and convenience. Every Crusader model features large 60" x 80" Ever Rest® select foam beds while several models come with a king bed option. Crusader bedrooms feel spacious and roomy due to our tall ceilings, they have large storage closets, and our bedroom slide-out models come with the added convenience of being washer and dryer ready. Everywhere you look, there are numerous upgrades that will make your Crusader the envy of the campground.

CRUSADER

by PRIME TIME Mfg.

UVW (Unloaded Vehicle Weight)* is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. *Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. ** Estimated average based on standard build optional equipment.

See back page for additional specification definitions.

24/7 EMERGENCY ROADSIDE ASSISTANCE

For a worry-free ownership experience Forest River includes one year of Coach-Net RV Technical & Roadside Assistance with each RV purchase. Whether new to the RV lifestyle or an experienced RV enthusiast, Forest River owners have 24/7 access to technical, operational and emergency road service coverage throughout the US & Canada. Coach-Net's fast, dependable service is just a phone call away.

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

PRE-DELIVERY INSPECTION FACILITY
20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.
