Description

TrailManor 2720 Series travel trailer 2720QB highlights:

Double-Size Bed
Booth Dinette
Wardrobe
Full Bathroom

You will always find a reason to take this 2720 Series travel trailer out to the campsite! With its double-size bed, queen-size bed, and booth dinette, this compact unit gives you ample space to sleep six people, and the privacy curtain gives you separation from the rest of the interior. LED lighting will brighten the interior once the sun has set, and the Fantastic Vent ceiling fan will keep everyone cool at night.

You won't have to search far to find a reason to love the TrailManor 2720 Series travel trailer! With excellent fuel economy, easy towing, a simple setup, and quality construction, the 2720 Series provides you with many unique benefits. The electric brakes and rubber torsion axles with independent suspension allow these trailers to travel with ease. You can tow these trailers with virtually no effort since it only takes about one extra gallon of gas to do so for 100 miles, yet they still provide the comforts that you would find in a traditional trailer, like a three-burner stove with oven, a full bathroom, and a Suburban 20,000 BTU furnace.
