Description

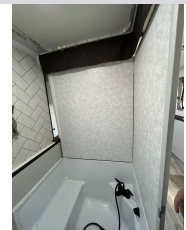

TrailManor 2518 Series travel trailer 2518KS highlights:

- Front Slide
- Sofa Bed
- King-Size Bed
- Dry Bath
- Outside Storage

Grab this customer-favorite 2518 Series travel trailer! This unit gives you an easy way to enjoy the great outdoors with its toilet and shower in the dry bath, its comfortable king-size bed, and its two-burner stove with oven in the kitchen. You will also be grateful for the sofa with end tables because it rests upon the single slide so that there is more interior living space, and it transforms into an additional sleeping space at night.

Back by popular demand, the TrailManor 2518 Series travel trailer is better than ever before! With completely effortless towing, these trailers give you one more reason to pack up right now and head out to the campground. The Torsion Lift Technology makes set up a breeze with its smart design, and you can even open up your trailer while it's raining without getting anything wet. The rubber torsion axles with independent suspension and the electric brakes work together to also aid in an enjoyable towing process, and once you have arrived at your destination, the 20-gallon fresh water tank, 35-gallon gray water tank, and 6-gallon DSI gas/electric water heater will all help make camping life even simpler.
