#### Description

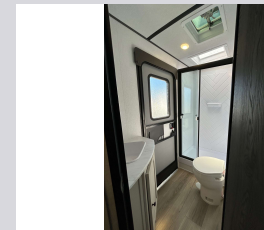

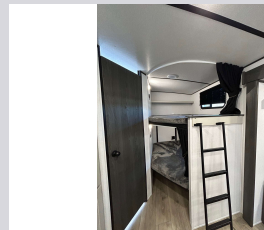

Coachmen Northern Spirit Ultra Lite travel trailer 2963BH highlights:

- Dual Entry
- Double-Size Bunks
- Entertainment Center with Hutch
- Dog Leash Clip & Wash
- Stor-More Cargo Door
- Outside Camp Kitchen

This is a popular bunk trailer for a larger family thanks to having the convenience of dual entry doors allowing access to the main living and kitchen area and near the front bedroom, and into the full bathroom for a quick in and out when playing outside. The bathroom also includes a hamper for convenience. The Stor-More cargo door allows you to place items from the exterior to the interior under the lower flip bunk for safe travels to your destinations and back home. The kids will surely love the convenience centers when playing or sleeping in a bunk. There is a sofa and U-shaped slide including a pet center for relaxing and feeding your pet. The kitchen includes full amenities plus a pantry to store lots of goodies for everyone. Along the exterior, the outside camp kitchen will come in handy when you have everyone at the campsite for dinner and the 18' awning offers some protection from the elements.

With any Northern Spirit Ultra Lite travel trailer by Coachmen, the "Twice Cool" dual ducted air conditioning system, motion activated floor lights in the bedroom and bathroom, and the motion activated pass-through storage light plus fishing pole storage, will make your camping experience simplified. The heated and enclosed underbelly provides protection on the road and allows you to camp during any season, the 200W solar panel with 30 amp controller provides off-grid camping, and the power tongue jack makes setup easier. Each is built with a front cap with LED strip lights, a laminated, aluminum framed floor, rear wall, and sidewalls, plus 5" trusses with an interior vault. Make your decision today, and camp with everything in its place!
