A rear bath with dual sink vanity, a king bed slide with drawers beneath for plenty of storage, and a front kitchen with breakfast bar and pantry as you enter all make this a great unit. There is so much to love about this dual slide travel trailer for two! You will enjoy plenty of space with a large slide in the bedroom and combined living area and kitchen. Theater seats are perfect for winding down your day inside, and a slide out king bed is a great way to enjoy a great night's rest. The bedroom is private and features a dresser and wardrobe as well as nightstands and bed overhead cabinets besides the under bed drawers so you can bring plenty of clothing and more. In the very rear of the unit, a spacious bath with large shower including a skylight, a linen cabinet and dual sink vanity so both can get ready at once. In the front kitchen you will find all the amenities to enjoy creating meals and snacks as you travel. There are two pantries with one just inside the door to your left, and one along the front wall near the refrigerator and theater seating slide.

With any Northern Spirit Ultra Lite travel trailer by Coachmen, the "Twice Cool" dual ducted air conditioning system, the motion activated floor lights in the bedroom and bathroom, the lighted USB ports, the digital level, and the motion activated pass-through storage light plus fishing pole storage, will make your camping experience simplified. The heated and enclosed underbelly provides protection on the road and allows you to camp during any season, the 200W solar panel with 30 amp controller provides off-grid camping, and the power tongue jack makes setup easier. Each is built with a 3/4 painted fiberglass front cap with LED strip lights, a laminated, aluminum framed floor, rear wall, and sidewalls, plus 5" trusses with an interior vault.
