

FROM OUR FAMILY TO YOURS QUALITY SINCE 1961

Ralph "Tex" Willett Founder 1908-1968

WELCOME TO THE FINE "FAMILY" OF NORTHSTAR CAMPERS

Owned and operated for over 50 years by a family in its third generation of manufacturing slide-in truck campers.

Truck Camping Pioneer Mom - Liz Willett 1938-2010

Start them early! Rex's father Robert, and youngest son cruising the plant.

Current president Rex Willett with Father, Robert Willett, circa 1973.

Much can be said on how continuity of ownership translates into excellence.

Each generation, as committed as the previous to maintaining their competitive edge by constantly evaluating their performance and striving for improvement. Passing on knowledge gained from proven techniques and construction, while pursuing new and better methods.

600SS with Extended Cabover

Std. Equipment all 600 & 700's

- Dometic 2 cf. 3-way Refrigerator
- 16,000 BTU Auto Ignition Furnace
- 4-Corner Mechanical Jacks
- 2 Burner Stove
- Single Sink with 12v Mini Pump
- 17 Gallon Fresh Water Tank
- City Water Inlet
- Marine Grade Ultra-Light Plywood
- Block Foam Insulation
- Insulated Floor
- Fiberglass Siding with Graphics
- 7-way Plug with Holder
- 30 AMP Power Cord with Adapter
- 25 AMP Power Converter
- Exterior Battery Box
- Interior & Exterior 110v Outlets
- LPG, Carbon Monoxide & Smoke Detector

- 20 Pound Lay-down LP Tank
- Pop-Out Pass-Thru Window
- Tinted Radius Slider Window
- Screened Entrance Door with Deadbolt
- Lift-Up Cabover Bed with 2 Gas Struts
- Innerspring Mattress
- Front Rubber Bumpers
- Exterior Lockable Storage
- 3 Exterior LED Patio Light
- Fire Extinguisher
- 12v Utility Receptacle
- Fantastic Fan w/ Thermostat
- LED Interior Lights
- Pedestal Table Leg System
- Large Folding Assist Handle
- Gas Strut Door Stop

Additional Std. Equipment for 600SS & 700SS

- 3.7 Cubic Foot 3-way Dometic Refrigerator
- 5" Taller Sidewall and Screen Door
- Greater Seating, Standing, & Sleeping Height

MC600 600 SS

TC700 700SS

SS Difference? The SS versions have 5" taller sidewalls gaining a taller screened entrance door, larger refrigerator with freezer and greater interior seating and standing height. Deeper storage under the lift-up bed and more room above the mattress.

Available options by numbers: 2, 4, 7-10, 12, 13, 16-20, 24-28, 30, 31

Differ ences & Featur es

Ready to sleep in! No need for extra support, just drop your camper and free your truck up to pull the boat or go sightseeing and explore. The strength is already built in! Be sure to compare!

Tri-lam vinyl canvas features large zippered enclosures with zippered tinted windows and screens. Vinyl interior and exterior means it is easy to clean, and no mold or mildew. Breathe easier!

With a two inch narrow profile Happijac jacks are smooth! 1500 lbs. of lift per jack and 34.5 inches of travel. Upgrade easily to wireless electric jacks on any model.

Versatility meets function with the optional Lagun table leg system. Adjusts up and down, rotates and swivels. Super rigid and perfect for meals, or emails to family and friends. Optional exterior mount bracket to take the table outside.

Northstar's rolled laminated roof does not have a topside molding edge and the clearance lights are also not in the body of the roof, eliminating hundreds of screw holes. Heavy cast corner and lower molding overcaps camper body by 1 1/2" acting as a rain-drip edge.

Maximum storage is standard on all Northstar campers. Northstar takes great pride in our neatness of gear installation and function. We invite you to compare our craftsmanship!

TC 650 for Full- Size Short or Ultra Short Bed Truck s

Truck bumper is exposed on the 6'6" short-bed trucks allowing for ease of hitching trailers. 12v lead from all Northstars comes out the rear to conveniently plug into existing plug on truck.

Available Y plug for towing.

Northstar Terminology

STANDARD REAR:

Available on 600's, 700's, TC650 & TC800's Long Bed Application. Left wing only on 600's & 700's. Recommended for TC650 when going on Ford Super-duty Short Bed.

HALFWRAP:

Dress up the rear by adding taillights and side-wings. Side-wings can be extended forward for today's super ultra short beds like the photo on page 5.

DETACHABLE WRAP-AROUND:

Available on 850SC: these dry storage boxes can be removed so your camper can adapt to a long bed truck.

PERMANENT WRAP-AROUND:

Available on 700's, 650's, 800's, and the 850SC. Storage doors on each side, and allows installation for the optional Torklift bumper with swing down step.

Cassette Toilet Truck C amper Perfec t

So...you like to get off the grid? The cassette is a built in toilet system with it's own water tank supply and waterpump. It has a waste capacity of 5 gallons and easily just slides out to dump just about anywhere. You can fill the 4 gallon f esh tank with antifreeze or windshield washer flui for cold weather camping and never worry about freezing! No wrestling with a sewer hose or paying to dump. When camping with the camper off the truck you can use the toilet as much as you want with no worry of re-loading the camper to dump your waste-tank. Totally off grid!

The Sub-Zero package consists of multiple upgrades featuring an insulated canvas with reflectiv insulation sewn in between two panels. The softwall material is not canvas, but rather three layers of modern material called Tri-Lam. The Tri-Lam vinyl is joined together so there's weather resistant vinyl on the inside and outside. With Tri-Lam you don't need to worry about putting the top down after a rainstorm. If mildew forms, the Tri-Lam wipes right off and looks brand new again.

The reflective foil on the inside of the Tri-Lam has an insulation factor of R-9. The foil faces into the camper interior to retain the heat in the winter, and the cool in the summer. The reflective foil als give a slight improvement to the sound insulation inside the camper and a great improvement in darkening the interior for when an afternoon nap is on the after-lunch menu.

The second part of the Sub-Zero insulation package is the inside of the camper walls; Celotex foil faced insulation. In Sub-Zero equipped campers, we hand fit elotex in the floo , ups, sides walls, front and back of the camper.

The Seitz acrylic, gas-filled thermal pane windows complete the Sub-Zero Package. Seitz windows are incredibly lightweight, recessed into the body of the camper, and include built in shades and screens. The ultimate in warmth, visibility, ventilation, and privacy.

If you want to prolong your camping season or just be more comfortable each day you camp, check out Northstar's new Sub-Zero option. It is definitely OOL!!

PRODUCT 17 COLOR C

Standard on all Northstars is the fantastic fan.
Produces up to 10 mph of cool, crisp air! No need
to tuck your enclosure when lowering the roof. Just
turn the fan on, shut the rear door and the fan pulls
the enclosure in like a full blown sail! Oh yeah!

More Standard Features...Go Northstar!

Northstars lift system has been tried, tested and works easily. Cranks up & down from inside the coach keeping the system dry & funcational for years of problem free use. Be sure to compare and put up and down a pop-up roof before you buy! A word to the wise should be sufficient

Every Northstar is screwed together at every single joint. Cabinets screwed in from the outside through the wall and also screwed together on the inside. Exterior plywood and low fomelhyde emmission paneling make for superior strength & breathability. Northstars are made to last a long time and endure many miles and off road use. It's the Northstar way!

The extended cabover feature is standard on some models. Storage compartments exist on either side of the innerspring mattress. Tri-Lam vinyl canvas has zippered enclosures for neatness and privacy. Storage pockets have been sewn in on each side for your convenience. Let the relaxation begin!

The XB or extra bed option is great for more sleeping space, extra gear storage, or room for your pets.

Cool off with the optional rear window air conditioner. Optional Roof air conditioners are available on the 650SC, 850SC, and 950SC.

Specifiactions options, equipment, subject to change without notice.
