Some specs at the time of print may include estimates. For the most accurate information, please visit Jayco.com

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of the trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists estimated weight information for that vehicle. See specifications chart above.

5-STAR / 4-STAR HANDLING PACKAGE

(Seismic)

(Talon)

This Handling Package is a Jayco exclusive, a powerful blend of high-end, American-made components that make pulling a luxury fifth wheel a breeze.

DEXTER AXLES WITH NEV-R-ADJUST BRAKES
The Benchmark of the trailer industry!

GOODYEAR BEAST TIRES
Made in the U.S.A. and featuring the patented Durawall® technology.

DEXTER SHACKLES WITH WET BOLT FASTENERS AND BRONZE BUSHINGS
Resists the wear-and-tear of towing.

MORRYDE RUBBERIZED SUSPENSION SYSTEM
Better absorbs and isolates road shock.

MORRYDE PIN BOX
Allows pin box to travel forward and backward as well as side-to-side, creating a smoother tow. (optional on Talon)

Two *Unique & Beautiful* Concepts

Every fixture, fabric and feature has been carefully selected and expertly installed. The result is an aesthetic that's extraordinary- with Jayco's famous high level of live-ability. Led by Interior Designer Stacy Stewart, our design, product development and engineering teams set out to answer the call for more choice in RV interiors and developed a market-disrupting design concept that could be expertly crafted without hampering production.

**True interior design.
More choice.
Mindful craftsmanship.**

JAYCOMMAND

THE JAYCOMMAND™ SYSTEM PUTS RVERS IN FULL CONTROL OF THEIR UNIT. THE SYSTEM WAS CUSTOM-BUILT BY OUR PRODUCT DEVELOPMENT TEAMS SO THAT OWNERS CAN MONITOR AND CONTROL KEY RV OPERATIONS FROM A PHONE OR A TABLET.

Extend your camping season with the Jayco Climate Shield. (N/A Octane SL)

It protects against extreme heat and extreme freezing—even in temperatures as high as 100 degrees or as low as zero degrees (Fahrenheit).*

*Jayco tested fifth wheels in zero degrees F and 100 degrees F weather over an extended period of time in a controlled environment, and all functions of the coach were fully operational. Testing was done in a completely controlled environment; therefore, temperatures during testing may not represent actual temperatures in nature and cannot account for elements such as wind or moisture. In actual use, unit may not perform as well. Supplier of cooling components does not guarantee anything better than 20 degrees difference from ambient temperature. In addition, outside components are subject to freezing and require steps to properly insulate. Jayco's limited warranty does not cover damage caused by freezing. To learn more about Climate Shield and testing done by Jayco, visit www.jayco.com.

WARRANTY

Travel with Confidence

NO ONE OFFERS A BETTER WARRANTY
At Jayco, we build our RVs to handle every adventure, then back them with our **industry-leading 2+3 warranty**. Our 2-year limited warranty has you covered for **2 camping seasons**. That's **730 days**. In addition, our 3-year structural warranty has you covered for **3 camping seasons or 1,095 days**. You won't find a better warranty in the business, because the only strings we attach are those that deliver the ultimate in reliability. That's the Jayco difference. So go explore. For a copy of our 2-year limited + 3-year structural warranty with complete terms and conditions, please contact your local Jayco dealer.
