Stability program – including wind assist, sway assist, drift compensation, trailer sway, engine drag control, rollover mitigation, electronic stability control.	X	
Telescopic steering	X	
Tires – LT225/75R16E black wall	X	
Torque – 352 Nm/260 lb.-ft.	X	
Transmission – automatic 6-speed TE	X	
Wheels – 16" aluminum polished	X	
Window operation – power, front doors	X	

Our revolutionary technologies give you the freedom to go anywhere.

EcoTrek – Lithium technology

EcoTrek technology is a powerful, sustainable, revolutionized battery management system taking the worry out of going off grid. EcoTrek utilizes lithium battery technology for the freedom to travel anywhere for longer periods of time. EcoTrek can be cycled or recharged, requiring less battery replacements and saving you money in the long term.

VoltStart – Remote battery starter

VoltStart is proprietary auto-start battery management system which is a safe, keyless operation, giving you freedom to leave your coach without leaving the key in the ignition. When paired with the engine generator and EcoTrek technology, VoltStart will automatically start your engine on its own or at the touch of a remote FOB to recharge your batteries.

Solar charging system

Solar panels produce electricity directly from the sun with no noise, no fumes or moving parts. Solar is a highly effective way of keeping your batteries charged without having to connect to shore power. Solar panels offer benefits to those who like to travel in their motorhome to remote locations for extended periods of time.

Worry free travel, backed by the best in the business.

Industry leading – Six-Year transferable RV warranty

The six-year unlimited mileage/km motorhome warranty covers the manufacturing of the motorhome, appliances, electronics, plumbing and EcoTrek batteries. Original manufacturer's warranty on all appliances will be applied first. This warranty excludes the complete chassis (original chassis manufacturer warranty applies, please refer to chassis manufacturers website for complete warranty details) and AGM batteries (AGM batteries have a normal one-year manufacturer's warranty.)

The six-year unlimited mileage/km motorhome warranty is fully transferable from the first owner to the second owner. A warranty transfer card can be found in the back of the model owner's manual.

Two-Year roadside RV assistance

With every new Hymer Aktiv, you can enjoy two years of free coverage in the Roadside RV Assistance program. This program offers a wide range of services to assist you should you need it, including towing, tire changes, jump-start services and technical support to name a few. You can now confidently take to the roads knowing we are behind you through every adventure.

Chassis warranty

The five-year/100,000-Mile Powertrain Limited Warranty covering the cost of repairs on all covered powertrain components - engine, transmission and drive system for most new Ram vehicles. The three-Year/36,000-Mile Limited Warranty provides bumper-to-bumper coverage from the body to the electrical system. Refer to chassis manufacturers' website for complete details.

Interior highlights

The right temperature – Keep your coach cool and comfortable with a powerful 11,000 BTU air conditioner or warm and cozy with the 16,000 BTU propane furnace.

Kitchen – With an expanded galley, 2-burner propane stove, 3.1 cu.ft. refrigerator, 0.7 cu. ft. microwave, and generous interior storage, you can prepare delicious meals on the road.

Superior comfort and flexibility – Get a great night's sleep on a comfortable queen-sized bed with a 75% thicker mattress and spring support system. During the day the Aktiv's folding bed system allows for an open aisle floor plan, giving you lots of space to store bikes, skis, kayaks and much more.

Generous storage – The Aktiv offers generous storage throughout the coach including rear under bed storage system, overhead cabinets, kitchen storage and lots of small spaces in between. The deep, soft touch closing drawer system and beautiful hardware making opening and closing the drawers a breeze.

Permanent bathroom – Be amazed by the space saving features this full bathroom has to offer. Equipped with a folding sink and ergonomic swivel toilet, you'll have more room to enjoy a relaxing shower.

Audio and entertainment system – You'll love listening to your favorite tunes while driving with the Uconnect 5.0 system equipped with Sirius XM/USB ports/Bluetooth steering wheel controls and AM/FM/CD/Aux. At night kick back and relax with the 24" HD flat screen TV and DVD player.

Precise navigation – Providing superior handling with telescopic steering, voice command, rearview back up camera, GPS and navigation making for a safe, smooth, and manageable ride.

Layout

Exterior highlights

Power extended awning – Enjoy the outdoors rain or shine with a 12' (3,657 mm) power awning featuring built in LED lights to help to illuminate your evenings.

Solid construction – The roof lining and side panels are integrated with high-quality heat and noise insulating fabric lining, standing up to the wind, rain and summer sun.

Tow more – Tow cargo easily and effortlessly with the incorporated receiver hitch – class 5 with 4 and 7 pin connectors.

Powerful and long lasting – Run your coach effortlessly with a high performing 3.6 L V6 gas engine, along with 2 x 6V AGM batteries giving more power and providing better life cycles to last longer.

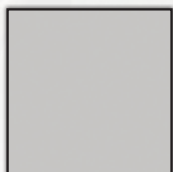

Maintains power – The under hood 280 AMP 12V generator helps to maintain power by charging your coach batteries with ease.

Easy to handle – Behind the wheel, you have the control and convenience to adjust and extend the wheel with telescopic steering. Once ready to coast, a smooth ride is undeniably provided by the automatic 6 speed TE transmission and durable tires making for an easy to handle drive.
