

FIFTH WHEEL TOY HAULERS

RAPTOR

THE LEGEND CONTINUES...

RAPTOR

FIFTH WHEEL TOYHAULERS

**BEAST OUTSIDE,
BEAUTY INSIDE.**

Through the years, many toy haulers have come and gone. One has remained a constant...Raptor. Raptor has now taken toy hauler design and innovation to an intimidating new level. Our message to our competition, "better luck next time". From the redesigned front cap to the tailgate, Raptor is not only leaner, it's meaner. One might say a "Beast". We did all of this and we're still able to maintain the "Beauty". Ask your local dealer how you can experience the innovation, value, and performance that is Keystone Raptor.

Relax. You're iN-Command™

Monitor and Control Functions

The iN-Command™ system gives you total control over your Keystone RV's functions and features like never before.

- (A) Turn on and off the water pump and water heater. This system enables you to select between electric or propane fuel sources, or both.
- (B) Turn on and off exterior lights.
- (C) Turn on and off awning lights.
- (D) Turn on and off interior lights.
- (E) Turn on and off security lights.
- (F) Control customized lighting zones such as main, dinette, mood, and night lights; even "all on, all off".
- (G) Extend and retract slide rooms.
- (H) Extend and retract patio awnings.
- (I) Monitor status of your fresh, gray and black water holding tanks.
- (J) Check your battery status.
- (K) Prime, start, and stop the on board generator with the tap of an icon. iN-Command not only lets you control your generator, but also keeps you informed of its running status by showing you the fuel tank level, voltage, running hours, and any diagnostic issues such as low oil, over crank, and service warnings. These advanced generator diagnostic features are an industry-first and can only be found using the iN-Command systems.
- (L) Monitor the auxiliary and generator fuel tank levels.
- (M) Rename your slide-rooms and lighting groups to any name you choose to make it easy to remember.

- ✓ Never lose your controller
- ✓ Multiple Users
- ✓ When you have your phone, you're iN-Command

Control • Systems Monitoring • Safety

FINALLY A SYSTEM YOU CAN TRUST.

iN-Command™ by JENSEN® embraces the next generation of controls for your Keystone RV by acting as the central hub of operations and puts you at the helm using your preferred smart device. But how does this all-encompassing system work? What, exactly, does it monitor and control? Let's take a closer look at iN-Command piece by piece.

The Display Commander is your primary point of contact with iN-Command. All of the switches and monitoring panels that have cluttered up interior walls in the past are integrated into this one sleek, touch screen monitor. What really makes the Display Commander stand out, however, is that it can be controlled remotely with a smart device using the free JENSEN iN-Command mobile app. This app performs all of the same functions as the Display Commander, but from the convenience of your mobile device.

Download and Install the Free iN-Command™ App from Google Play or Apple App Store for the ultimate in control.

**AN UNBELIEVABLE OPEN LIVING AREA IN A
TANDEM AXLE SHOWN IN TWILIGHT DECOR**
