40J Greenwich with Coffee-Glazed Honey Cherry Cabinetry

The Quintessential Diesel

Step up your diesel game with the Journey® and its acclaimed Maxum Chassis®. With copious amounts of storage and increased towing power, there are no limits to your next adventure. In addition to three available floorplans, four new décor selections and four glazed-finish wood choices let you style your Journey any way you want it. When it comes to your favorite music, turn up

the volume on the available JBL® 11-speaker Premium Cab Sound System. A full-wall slideout in each floorplan provides room for features like the Rest Easy® extendable sectional sofa (42E) and a complete Samsung® home entertainment system. Your Journey has arrived. The destination is up to you.

2016 MotorHome
READERS' CHOICE

Class A

40J Greenwich with Coffee-Glazed Honey Cherry Cabinetry

Relax. That's your only duty when you're lounging on the Ultraleather™ furniture in your Journey. The 36M features two sofas and two available HDTVs. The 40J pairs a Rest Easy sofa and a lounge chair with a corner entertainment center and an electric fireplace. And for the ultimate in comfort and relaxation, select the 42E with the Rest Easy extendable sectional sofa and available ottomans. Four new décor selections and the much adored glazed-finish cabinet woods let you create the look you desire. Features such as MCD solar/blackout roller shades, USB charging points throughout the coach, and an available central vacuum system (40J, 42E) make life on the road a joy.

40J Available Ottoman Storage

OnePlace Systems Center

40J Galley

The Journey presents a galley worthy of a high-end residential kitchen with Corian® countertops, matching sink covers, a decorative backsplash, and a stainless steel French door refrigerator/freezer. The microwave/convection oven saves space and provides a faster alternative for crisping and browning your baked delights. Speed is also the name of the game on the quick-heating induction range top found on the 40J and 42E. The 36M comes with a traditional range top with storage below or an available oven. Enjoy leisurely meals and great conversation at the elegant Glide & Dine™ dining table with an incorporated buffet for your side dishes.

40J Full-Extension Drawers

40J Refrigerator/Freezer

40J 2-Burner Induction Range

40J Bedroom

40J Mid-Coach Bath Vanity

40J Shower

40J Available Washer/Dryer

Get the great night's sleep you deserve in an Ideal Rest® Natural Reserve digital comfort control mattress, standard in the 40J and 42E and available in the 36M. The mattress features adjustable firmness with controls for each side of the bed that puts you in a comfortable position for reading or watching the HDTV at the press of a button. Get the temperature just right with a standard ceiling fan and an available electric fireplace in the 36M. The two largest models also include a private master bathroom with the 42E offering the added luxury of Winnebago's exclusive BIG Shower.

40J Wardrobe

40J Master Bathroom

Dash

The Journey is built on a hall of fame-worthy foundation: the Maxum Chassis. Powered by a 360-hp (36M) to 450-hp (42E) Cummins turbo-charged diesel engine, your Journey delivers a smooth performance over hills and through the winding roads as you traverse the country. The cab puts you in total command, with a SmartWheel™ steering wheel that places all critical controls at your fingertips. Your ride is further enhanced by the Infotainment Center with Rand McNally RV GPS. It combines navigation, safety features like rear and sideview cameras, and the cab stereo into one easy-to-use system. Two touchscreens give controls to the driver and passenger and the system can be enhanced with the available JBL 11-speaker Premium Cab Sound System for concert hall-quality sound.

Cab Seat Reclined

Take the party outside with an available entertainment center featuring an HDTV (all models) and a robust soundbar system with a wireless subwoofer (40J, 42E). Enjoy time spent relaxing under the powered patio awning that boasts an armless design for more head clearance and LED lighting for evening gatherings. Lawn chairs, portable grills, and much more can be stored in the cavernous storage compartment with a sliding tray made possible by the Maxum Chassis. When the bay doors are shut, the coach gleams with a beautiful finish in your choice from six full-body paint schemes to give your Journey a custom look.

Fiberglass Roof The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Solid Framework Structural extruded aluminum creates an extremely strong and solid structural framework.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

**SUPER
STRUCTURE**

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**
BUILT TO LAST

Visit BetterBuiltRVs.com to gain real insight into what goes into a Winnebago motorhome.

TAKE A TOUR We're proud of our processes, state-of-the-art facilities, and the people who make Winnebago number one. We invite you to visit our complex in Forest City, Iowa, for a firsthand look at the dedication and technology behind every motorhome we build.

Call (641) 585-6936 or (800) 643-4892 or visit us online at WinnebagoIInd.com/company/visit for more information.

3-point engine mounting reduces engine vibration.

Engine brake uses the engine to slow the coach, promoting longer brake life.

Allison® 3000 MH 6-speed automatic transmission includes a touchpad control for ease of use.

Rear axle incorporates proprietary gear machining for a smoother, quieter ride.

NeWay® rear air suspension provides superior ride and handling.

MAXUM
CHASSIS

The lowered-rail design moves intrusive rails from storage areas, creating up to 229 cubic feet of storage.

Taller, 23.25" pass-through storage height accommodates bulky items compared to 19.5" similar raised-rail and 17" on a typical straight-rail.

Extra space in critical areas allows for more pass-through storage.

55° wheel cut provides a tighter turning radius and better maneuvering.

Color-coded air lines make service easy.

10,000-pound trailer hitch⁶ (36M)

15,000-pound trailer hitch⁶ (40J, 42E)

"Clean Air Diesel" Cummins® engine delivers hill-climbing power when you need it most:

- Cummins ISB XT 6.7L 360-hp (36M)
- Cummins ISL 8.9L 400-hp (40J)
- Cummins ISL 8.9L 450-hp (42E)

Low frame rails create a lower center of gravity improving stability.

Winnebago's SuperStructure integrated with the lowered-rail design creates a chassis that is seven times stronger than typical raised-rail chassis designs.

Dual-fill fuel tank.

4-wheel ABS anti-lock air brakes provide fast stopping power.

Michelin® tires and polished aluminum wheels look sharp.

A True Work of Art

You may not be able to see the Maxum Chassis® as you're driving through the Rockies or cruising the coast, but you'll know it's there. Its powerful Cummins® turbo-charged diesel engine and Allison® transmission go to work so you don't have to sweat the peaks and valleys ahead.

Through a strong partnership with Freightliner, the undisputed leader in diesel motorhome

chassis, we set a new standard for handling, ride and performance in diesel chassis design.

But performance doesn't mean sacrificing storage. The innovative lowered-rail design of the Maxum Chassis opens up a cavernous basement storage compartment, offering up to 229 cubic feet of storage.

Warranty⁷

12-month/15,000-mile basic limited warranty⁸

36-month/36,000-mile limited warranty on structure⁸

10-year limited parts-and-labor warranty on roof skin⁸

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- Floorplans feature a wide-body design - over 96" In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and CCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
