- Available exterior entertainment center
- Available powered StudioLoft™ bed
- Soft Primera® furniture
- Bunk beds (35B)
- MCD solar/blackout roller shades
- Water heater with motoraid
- Curbview window
- Winnebago's® legendary SuperStructure® construction design

On the Cover: 30T Arctic Silver Full-Body Paint

30T Stardust with Coffee-Glazed Vienna Maple Cabinetry

More Features. More Value.

Imagine the Sunstar® with dozens of additional features in four distinct floorplans for an even more comfortable journey—that's the beauty of the Sunstar LX. The triple sliderooms (NA 35F) expand your living space, providing additional room for a walk-around queen bed, guest bathroom (35F & 35B) and an available dining table/buffet

with a retractable HDTV (30T). Families are drawn to the Sunstar LX for its family-friendly layouts, especially the 35B that comfortably sleeps seven. It's time to stop talking about making the leap to a Class A motorhome and make it a reality with the elegant and affordable Sunstar LX, built proudly by Winnebago.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

30T Stardust with Coffee-Glazed Vienna Maple Cabinetry

The Sunstar LX makes relaxation a top priority with a spacious lounge featuring just the right mix of style, storage, and Primera®-covered furniture, including the Extendable Sectional Sofa facing the wall-mounted HDTV and fireplace in the 35F. All Sunstar LX floorplans include a dinette that can be upgraded to the BenchMark® full comfort dinette with innerspring cushions and hidden storage. At night, pull down the MCD solar/blackout roller shades where the lounge offers a variety of comfortable sleeping options. Your guests will find the increased size of the available StudioLoft bed very accommodating and you'll appreciate its slim profile that tucks up into the ceiling and out of the way when not in use.

MCD Solar/Blackout Roller Shades

30T Cab Seats

30T Available StudioLoft Bed

30T Sofa

OnePlace® Systems Monitor

30T Dining Table and Buffet

30T Sofa as Bed

30T Retractable HDTV

30T Buffet

Front Wraparound Curtain

30T Galley

The exceptionally user-friendly galley of the Sunstar LX includes a three-burner range, microwave oven, refrigerator/freezer and Corian® countertops. Upgrade the microwave oven to a microwave/convection oven to bake and brown like a conventional oven in a fraction of the time. The 35F takes things even further with a residential refrigerator and a floor-to-ceiling pantry.

30T Full-Extension Drawers

30T Refrigerator/Freezer

30T Microwave/Convection Oven

30T Bedroom

Retire to a peaceful master bedroom with a walk-around queen bed, abundant wardrobe space, and an available HDTV. The 35F and 35B provide the added serenity of a private master bathroom with the BIG Shower. Bunk beds adjacent to the bedroom in the 35B are a popular choice for kids and adults alike, especially if you opt for the available individual DVD players, monitors, and headphones in each bunk.

30T Under Bed Storage

30T Bathroom

30T Shower

Dash

Whether you're on the road or you've reached your destination, the Versa driver's seat provides the comfort, support, and adjustability to always give you that feeling of being in the right place at the right time. The 6.2" touchscreen at the center of the console acts as both the rearview monitor and an entertainment hub with controls for the stereo, DVD player, iPod®/MP3 player, Bluetooth™ devices, and available SiriusXM® satellite radio. A remote is also included. For added comfort, select the six-way power pedestal for the driver's seat.

Passenger Dash Workstation with 12V USB Charging Ports

Powered Mirrors with Defrost and Available Sideview Cameras

30T Powered Patio Awning

One of the biggest advantages Class A motorhomes have over Class Cs is their abundant storage space. The Sunstar LX improves on that advantage with paddle-style latches on the storage bay doors for easy access and dual-latching points for added security. The standard powered patio awning opens at the press of a button and you keep the good times going well into the evening with the available exterior entertainment center that boasts an HDTV, stereo, DVD player, and remote (NA 30T).

Automatic Entrance Door Steps

30T Stainless Steel Wheel Liners

Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It

Rubber roofs used by competitors can streak and degrade over time.

Thermo-Panel® Sidewalls

By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating

An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Laser-Cut Tubing

Precision laser cutters create precision joints in structural steel that are stronger and require less welding.

Interlocking Joints

Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Solid Framework Structural extruded aluminum creates an extremely strong solid frame.

SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**

Heated holding tank compartment

Permanent-mount LP tank w/gauge

On-demand water pump

TrueLevel™ holding tank monitoring system

Winterization Package water heater bypass valve and siphon tube

LPG accessory connection (patio area)

Gravity tank fill w/lockable door (NA 35B)

Holding tank flushing system (black tank only)

Sewage pump (macerator) (35F)

Safety

Child seat tether anchor (forward facing dinette seat)

LP, smoke, and carbon monoxide detectors

10 BC fire extinguisher

Ground fault interrupter

High-mount brake lamp

Warranty⁷

12-month/15,000-mile basic limited warranty⁸

36-month/36,000-mile limited warranty on structure⁸

10-year limited parts-and-labor warranty on roof skin⁸

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- Floorplans feature a wide-body design - over 96" In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (WC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
