*Distance from the pin box to the bumper; total exterior length may be longer.

**Split tanks

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart to the left.

Unloaded Vehicle Weight (UJVW): Sometimes referred to as "Dry Weight," UJVW means the typical weight of this trailer as built at the factory. The UJVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UJVW plus personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UJVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UJVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

STANDARDS AND OPTIONS

NORTH POINT LUXURY PACKAGE (mandatory)

Bedroom 15,000-BTU A/C

5-Star Handling Package—an unmatched towing experience

- **Dexter® 7,000-pound axles with Nev-R-Adjust® self-adjusting brakes (1)** – the benchmark of the trailer industry
- **Dexter heavy-duty shackles with wet bolt fasteners and bronze bushings (2)** – resist the wear and tear of towing
- **MORryde® pin box (3)** – allows pin box to travel forward and backward as well as side to side, creating a smoother tow
- **MORryde CRE3000™ suspension (4)** – 3 inches of vertical travel to better absorb and isolate road shock
- **Goodyear® Beast tires (5)** – patented Durawall® Technology and the highest speed rating in the industry

CLIMATE SHIELD

Extend your camping season with the Jayco Climate Shield™. It protects against extreme heat and extreme freezing—even in temperatures as high as 100 degrees or as low as zero degrees (Fahrenheit).*

*Jayco tested fifth wheels in zero degrees F and 100 degrees F weather over an extended period of time in a controlled environment, and all functions of the coach were fully operational. Testing was done in a completely controlled environment, therefore, temperatures during testing may not represent actual temperatures in nature and cannot account for elements such as wind or moisture. In actual use, unit may not perform as well. Supplier of cooling components does not guarantee anything better than 20 degrees difference from ambient temperature. In addition, outside components are subject to freezing and require steps to properly insulate. Jayco's limited warranty does not cover damage caused by freezing. To learn more about Climate Shield and testing done by Jayco, visit www.jayco.com.

THE JAYCO DIFFERENCE

1. **16-inch Goodyear® Beast tires** with the highest speed rating in the industry
2. **Dexter® 7,000-pound axles** with wet bolt fasteners and heavy-duty shackles
3. **Vacuum-bonded walls and high-gloss, premium fiberglass exteriors** for better protection from the elements
4. **Magnum Truss™ XL6 Roof System** withstands 4,500 pounds—50 percent more than other roofs

5. **Welded aluminum frame** for a durable, lightweight structure
6. **Double layer of fiberglass insulation** behind the front cap, plus Flexfoil® and fiberglass insulation in the floor to provide extra warmth where it's needed most—in the bedroom
7. **Painted gelcoat fiberglass front cap** withstands the rigors of the road with infused paint and gelcoating, plus ¼-inch plywood bracing for additional support—not typically found on competing fifth wheels
8. **MORryde® CRE3000™ rubberized suspension system** provides smoother towing and better protection from damaging road shock
9. **HELIX Cooling System with Whisper Quiet technology**
10. **6-point electric auto-leveling system**
11. **Carefree® power awning** with LED light strip
12. **MORryde StepAbove™ entrance steps**
13. **Cargo accessory receiver**
14. **Sidewall- and roof-mounted solar prep**
15. **Magnum Frame System**
16. **MORryde pin box**
