Industry leading – Six-year transferable RV warranty

The six-year unlimited mileage/km motorhome warranty covers the manufacturing of the motorhome, appliances, electronics, plumbing and EcoTrek batteries. The original manufacturer's warranty on all appliances will be applied first. This warranty excludes the complete chassis (original chassis manufacturer warranty applies, please refer to chassis manufacturers website for complete warranty details) and AGM batteries (AGM batteries have a normal one-year manufacturer's warranty.)

The six-year unlimited mileage/km motorhome warranty is fully transferable from the first owner to the next owner. A warranty transfer card can be found in the back of the model owner's manual.

Chassis warranty

The five-year/100,000 mile powertrain limited warranty covers the cost of repairs on all covered powertrain components - engine, transmission and drive system for most new Ram vehicles. The three-year/36,000 mile limited warranty provides bumper-to-bumper coverage from the body to the electrical system. Refer to chassis manufactures' website for complete details.

Two-year roadside RV assistance

With every new Hymer Aktiv, you can enjoy two years of free coverage with the Roadside RV Assistance program. This program offers a wide range of services to assist you should you need it, including towing, tire changes, jump-start services and technical support to name a few. You can now confidently take to the roads knowing we are behind you through every adventure.
