Viper Class B+ Floor Plans & Specifications

Viper Class B+ motor homes by NeXus RV are very similar to Class C motor homes except they are built without the overhead sleeping area and they are typically slightly smaller in height and width. These products are also built on a cutaway Ford chassis.

Built on a Ford chassis with a V-10 engine, the all steel cage construction gives you the safest and best driving experience in the Class C industry.

This Phantom 31P Class C motor home is furnished with an appreciable amount of floor space and generous and multiple storage areas with all the amenities of home.

Distinctive Luxury Features

Built with all steel cage construction, The NeXus RV Class C and B+ motor homes not only allow traveling in safety, but are stylish and spacious, too!

High strength low alloy steel framing throughout motor home – **72% stronger than aluminum!**
 AZDEL® substrate in sidewalls and roof
 – **No wood products!**

What better way to rest and relax than in a Phantom 31P private master suite. Expansive, large mirrored closet with drawers underneath. Additional storage in spacious over-the-bed cabinets with individual LED reading lights.

The Phantom 32P bunks are roomy with added storage for guests and the lighted wardrobe with deep drawers provide much needed space for extended stays.

Relax or entertain in the Viper 29V lounge area with luxurious, comfortable furniture and large locking dinette drawers for pastime essentials.

The Viper 25V has an efficient kitchen design for preparing your favorite meals as well as storing your cooking essentials.

An optional outside entertainment center with LED TV is situated under a retractable awning for times when you want to enjoy the outdoors.

About Us

NeXus RV is excited to continue our journey in becoming a world class motor home manufacturer. For the last seven years, we have built our brand one retail customer at a time. This approach allowed us to develop our product into the very best in each segment we compete. Selling factory direct was the only way for NeXus RV to continue to do what we loved to do – sell motor homes – as the big recession was impacting the entire industry, dealers had no floor planning, and banks were not lending.

Dave Middleton
Co-Founder

Claude Donati
Co-Founder

After years of doubling our business and introducing many new products, we have decided to share our unmatched products with **THE BEST DEALERS**. This decision to sell through a National dealership network will allow our customer to touch, feel and purchase our great products throughout North America.

The RV market is as hot as it has ever been. This unbelievable market growth has spurred NeXus RV to offer our great brands to the dealerships and retail customer alike with superior built motor homes. Specifically, we build our product with the most durable and progressive construction in the business. Beginning with our High Strength Low Alloy All Steel Cage framing providing 72% more strength than products built with Aluminum. Also, we use no wood products in our sidewalls and roof by using a product called Azdel. This product increases the R factor and decreases your weight in half compared to wood products used by our competitors. These features and many more make NeXus RV products a step above other manufacturers.

We will continue to have an intimate relationship with our customers and provide all the technical information to our customers and dealers while supplying world class service both before and after the sale. Customers want to be treated like family and they want a product that is not simply slapped together in a high volume environment. Dealerships want a product they can sell that has features and benefits that customers want and they can sell in a large territory with no cloned product. We are excited to offer all this and more to those wanting to experience something more personal at all levels.

NeXCLUSIVE Features

Vacuum Bond Laminate Slide-Out Rooms	●	⊗	Stronger Than the Normal Construction Process
Customer Service with Nationwide Network	●	⊗	Peace-of-Mind

At NeXus RV, we believe in manufacturing a superior built motor home. Our brands — the Bentley Class A Diesel Pusher Motor home, the Maybach Class A Gas Motor home, the Phantom Class C Motor home, the Wraith Super C Diesel Motor home, the Ghost Super C Diesel Motor home, and the Viper Class B+ Motor home — are known in the industry for exclusive manufacturing philosophies, which begin with our strong foundation of high strength low alloy 20-gauge steel framing.

We also believe there is an RV for everyone. Our company’s principles reflect those of many privately held family owned companies that made the RV industry what it is today. We do what the customers and dealerships want, not what the stock market or shareholders suggest, as we are not a large publicly traded company. We are real people building RVs for real people.
