Camping Redefined

inTech set out to create something not only unique, but extremely functional. We listened to owners of traditional teardrop trailers and took their input to create Luna. Small in size and easy to tow, Luna has surprisingly more interior room and a larger, more functional kitchen than any other teardrop trailer on the market.

LUXURIOUS INTERIOR

Luna's large interior includes two versatile mattresses that can be configured to create individual seating areas or a massive 60" X 83" sleeping area. Stay entertained with the optional 40" LED TV and standard DVD/Bluetooth stereo that features speakers both inside the camper and in the exterior kitchen.

**All-Aluminum
All-Tube
Fully Welded Cage**

PANORAMIC FRONT WINDSHIELD

This is where Luna really shines...the enormous front tempered glass windshield gives that million dollar view that no other teardrop trailer offers. The front seating has an integrated storage area that includes a built-in center table.

GOURMET KITCHEN

The 3-Burner LP Stove will have you believing you are in a gourmet kitchen, not a teardrop trailer. The integrated stainless steel sink features a commercial style pull-down faucet...a sink that's actually big enough to clean pots and pans! The kitchen also features a pull-out 12V refrigerator and a stainless steel microwave oven. There is plenty of prep area for cooking.
