# BUILT TO A HIGHER STANDARD

## MAXIMUM INSULATION

### 1 RESIDENTIAL INSULATED WALLS (R-9)

Exterior walls and sliderooms are framed with studs set 16" on center, and residential fiberglass insulation is adhered in place between each stud.

### 2 INSULATED FLOOR AND ENCLOSED UNDERBELLY (R-9)

The main floor is insulated with a layer of residential fiberglass insulation. The coach underbelly is also fully enclosed and heated with a dedicated duct.

### 3 DOUBLE INSULATED ROOF (R-40)\*

A layer of fiberglass insulation and a layer of radiant foil insulation covers the full length of the roof.

### 4 INSULATED FRONT WALL (R-9)\*

The residential fiberglass insulation layer from the roof, continues all the way around to the bottom of the front wall.

## MAXIMUM FUNCTION

A high performance furnace delivers 30,000 BTUs of heating power.

Heated and Enclosed Underbelly with Suspended Tank

## EVENFLOW HEATING SYSTEM

Evenly distributes heat from the front to the rear without vents in floor that collect dirt and debris.

25% THICKER THAN THE COMPETITION

The satin metal exterior skin is 25% thicker, for a more durable and better looking sidewall.

## QUAD SEAL

4 protective layers (mylar tape, 2-layers of PVC foam, and a final silicone cap seal) line the perimeter of the coach for ultimate protection from the elements.

## BACKED TO A HIGHER STANDARD

Every Grand Design RV is backed with a class leading 3-year limited structural warranty. By selecting suppliers with similar philosophies, many components used on our coaches also carry an extended warranty through the component manufacturer.

- ▶ AXLES (5 Years)
- ▶ TIRE WARRANTY (5 Years w/12 Month no questions asked replacement)
- ▶ EXTERIOR GRAPHICS (5 Years)
- ▶ ROOF COVERING (12 Years)
