Luxury to the MAX **LACROSSE**

LUXURY TO THE MAX

With LaCrosse, this is more than just a catchy phrase found inside a brochure — it's the strategy that guides us every day as we strive to create the perfect recreational vehicle. A simple example of this strategy is LaCrosse's 82" sidewall height. Your senses will tell you that the extra headroom "feels" great. Then you notice that the kitchen cabinets are huge and the vented windows are 20% larger — very nice, indeed. Finally, as you settle into the residential furniture, you will appreciate that LaCrosse has extra tall, very spacious slide outs.

Luxury To The **Max**. It's our strategy to **MAX**imize your enjoyment.

In the past, luxury and value were contradictory terms — not any more! LaCrosse redefines value to include the very best in price and quality without sacrificing luxury, comfort, and convenience. LaCrosse is loaded with upgraded features like: solid surface countertops, beautiful hardwood cabinet doors, and large LED TVs. To MAXimize your convenience, the LaCrosse features an 11 CU. FT. residential refrigerator. The unmatched storage, residential appeal, and plush comfort of LaCrosse is normally reserved for high end fifth wheels that cost thousands more.

Your search for the perfect combination of luxury and value is over. Welcome to the LaCrosse family!

3310BH— Decor Shown in Portobello

At Prime Time Manufacturing, we know that finding the right floorplan is the single most important decision you make when purchasing your new recreational vehicle. That's why we offer a variety of choices including double and triple slide out floorplans, bunk models, rear entertainment, rear living rooms and rear kitchen models.

In keeping with the LaCrosse **"Luxury to the Max"** motto, you'll find 50" LED TVs (N/A 3360BI) in each LaCrosse floorplan, **MAX**imum storage throughout each and every layout — and you'll even see models with a king size bed!

LaCrosse simply provides a level of luxury that is a cut above.

UVW (Unloaded Vehicle Weight)* is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. *Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. ** Estimated average based on standard build optional equipment.

See back page for additional specification definitions.

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

24/7 EMERGENCY ROADSIDE ASSISTANCE

For a worry-free ownership experience Forest River includes one year of Coach-Net RV Technical & Roadside Assistance with each RV purchase. Whether new to the RV lifestyle or an experienced RV enthusiast, Forest River owners have 24/7 access to technical, operational and emergency road service coverage throughout the US & Canada. Coach-Net's fast, dependable service is just a phone call away.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.
