Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

STANDARDS AND OPTIONS

STANDARD EXTERIOR EQUIPMENT

5-YEAR WARRANTIES

LIFTER SYSTEM

Featuring extra-wide lifter posts and flexible push-rods, our lifter system is built to last and super easy to use.

BED PLATFORM

Our two-piece, extruded aluminum bed frame features half-inch decking and heavy-duty supports—holding up to 1,050 pounds.

TENTS

Water-repellent, sectionalized DuraTek™ tents feature a mildew-resistant backer and tinted vinyl windows with cold-crack coverage to -20° F and interior UV protection.

FLOOR

Our one-piece, wooden floor deck with water-resistant Poly Flex™ material is the strongest in the industry. Glue and screws double bond the floor to the frame for extra-mile durability.

ROOF

A one-piece, fiberglass roof features a unique dome design for better water runoff and superior leak prevention.

FRAME

Powder-coated to prevent corrosion, Jayco's custom-built, integrated A-frame is built for the long haul—and designed to prevent buckling and torque during towing.

Generations of family fun.

Meet your Jayco Dealer

We work hard—so you can play hard. From finding the perfect Jayco for your family to providing flexible financing options and full-service support, we're here to help.
