

IMPRESSION

FOREST RIVER

Built by Experienced RVers

WWW.IMPRESSONRV.COM

The 26 RET captures the full elegance of Impression's modern styling and wide-open design.

Impression is built by experienced RVers. Our designers understand what customers want and need when purchasing a fifth wheel and have created Impression to exceed those requirements. Compare Impression's long list of features found on our high profile chassis and you, too, will be IMPRESSED! (26 RET Shown in Pebble)

Make your first IMPRESSION ... a lasting IMPRESSION

Every Impression emphasizes storage and convenience.

A flush floor master suite and king bed highlight the FIRST IMPRESSION BEDROOM.

IMPRESSION FLOORPLANS & SPECIFICATIONS

26RET

The 26RET checks every box for the customer who is looking for a short, lightweight, easy-to-tow fifth wheel. You will be amazed at the amount of storage and wide open appeal of this NO COMPROMISES floorplan.

27MKS

More places to relax while watching your perfectly placed television. More storage and more countertop space. A perfect layout to entertain guests. The lightweight 27MKS just offers "more" than most other floorplans.

28BHS

A different approach to the small, family bunkhouse. Opposing slides make the unique 28BHS feel huge and roomy inside. Large 48" bunks for the kids and a king sized bed for the parents are rarely found in a lightweight, easy-to-tow fifth wheel.

28RSS

The 28RSS is Impression's approach to one of the industry's best selling floorplans. With a king bed, flush floor master suite, tall slide rooms, and oversized pass thru storage, the advantages of the 28RSS over other units easily speak for themselves.

MODEL	26RET	27MKS	28BHS	28RSS
Length	30' 7"	32' 11"	32' 9"	32' 3"

CUSTOMER SATISFACTION

www.ForestRiverBuyLocal.com

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty black and gray tanks for more cargo capacity.

*Estimated Average based on standard build optional equipment. ** Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit. All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. ©2017 Impression, a division of Forest River Inc., a Berkshire Hathaway company
