TOY HAULERS

HYPHER LITE

30HDS This well-equipped kitchen and living area features Shaker style cabinetry and durable Beauflor® flooring. Experience a superior level of comfort with Hyper Lite's optional power sofa complete with three recliners that operate independently, and have USB chargers in the arm rests. Shown in Linen decor with an optional 32" LED TV.

The 29HFS and 30HDS are standard with a spacious sofa/dinette. A three-recliner sofa with USB outlet option is available

Versatile Hyper Lite offers growing families and outdoor adventurers the perfect home base for a fun get away. Hyper Lite is heavy on quality – light on weight, and constructed with vacuum-bonded, aluminum-framed sidewalls, a fiberglass exterior, heavy duty steel chassis and a full walk-on roof. All Hyper Lites are half-ton towable.

30HDS Opposing slides maximize living space in this modern, storage friendly kitchen. Shown with an optional convection microwave oven below the cooktop. Stainless steel appliances and LED accent lights add to the contemporary styling.

MICA

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
