# SIGNATURE SERIES

AVAILABLE ON ALL MODELS

When Cole Davis founded Keystone RV in 1996 his vision was clear: Build a quality RV loaded with features priced thousands less than other RVs on the market. To accomplish his goal, Cole would recruit and build a strong team, focus on keeping overhead low, and empower the people closest to the customer to make decisions. Within a few short months after opening the doors, Keystone produced its very first camper. Delivering big on quality, features and value.

As customers appetite skyrocketed, new Keystone models were added to satisfy growing customer demand. Along with this tremendous growth came the need for expanded production. To meet this need, more manufacturing plants were built and staffed. By the beginning of 2000, Keystone was leading the industry in fifth wheel and trailer sales. Today, Keystone RV Company has grown to encompass over 1 million square feet of manufacturing space with facilities in Goshen, Indiana and Pendleton, Oregon. While Keystone is no longer the small "start up" we once were, our mission has remained true to Cole's vision—"Do the job right and make sure we deliver a quality product every time."
