## INTELLIGENT.

» *in-tel-li-gent*, adj.

*smart; clever; sensible or rational; showing or resulting from an ability to think and understand things clearly and logically.*

Prime Time Manufacturing is proud to offer Sanibel — a luxury fifth wheel built to stand unequivocally on its own with a level of intelligence that far exceeds the status quo.

From its well-designed, spacious interior to its modern amenities and extra creature comforts, the Sanibel is your home away from home. The interior is crafted around comfort, beauty, and convenience.

Modern cabinetry, residential appointments, and rich textures create a sophisticated space of warmth and elegance. Fabrics are specially treated to provide the softest touch and breathability for comfort in heat or cold.

In short, every element of Sanibel creates a personal connection focused on enjoyment and satisfaction!

# KITCHEN.

The Intelligent Kitchen is symbolic of the genius behind Sanibel's inspiration. Work spaces and storage areas have been carefully designed and positioned for instinctive reach and use. Premium components have been selected for long term durability. An advanced appliance package will indulge your residential desires while brilliant cabinet doors and drawers will welcome you with handsome looks. The Intelligent Kitchen, like each and every detail of the Sanibel, has been examined and questioned to ultimately provide a single result – the highest level of owner satisfaction.

3751 Bedroom

# BEDROOM.

The expansive interior of the Sanibel was astutely designed to adapt its space to your needs. A quick examination under the king size bed will expose a massive storage area that is up to 300% larger than other luxury fifth wheels. Shoe storage in the wardrobe, six large vanity drawers, and multiple overhead cabinets are additional examples of intelligent space utilization. However, the creation of space was also a priority with Sanibel. That's why you will find extra "convenience inches" in the bed slide and large "hidden" drawers recessed into the front wall. Our designers even added radius corners to the I-Rest Mattress® to assist in traffic flow.

Sanibel extends intelligent design to all parts of the fifth wheel including how the holding tanks are heated. Each tank is equipped with oversized ①12 Volt heating pads for direct heat application. Every tank is then wrapped with ②Radiant Shield Technology (R-38) to help spread the heat over the tank surface while protecting it from cold exterior temperatures. This intelligent design ensures that ALL of your holding tanks are adequately protected while also ensuring that ALL of the heat from your furnace stays INSIDE your Sanibel to maximize your comfort. Unlike forced air applications, customers also appreciate that you can activate the heat pads during transit for additional protection.

# SANIBEL - FLOORPLANS

**UVW (Unloaded Vehicle Weight)\*** is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

\*Estimated Average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)\*\*** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. \*\* Estimated average based on standard build optional equipment.

See back page for additional specification definitions.

## ADDITIONAL SPECIFICATIONS:

**GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
